Re: Docket No. E-22, Sub 577

Dear Ms. Campbell:

The purpose of this letter is to provide the Commission with the final results of the Public Staff's review of the costs of the portfolio of demand-side management and energy efficiency (DSM/EE) programs of Dominion Energy North Carolina (DENC or the Company), incurred during the 12-month period ended December 31, 2018 (2018 or test year program costs).

In his testimony filed on October 22, 2019, Public Staff witness Maness stated that the Public Staff's investigation included a review of the Company's filing, relevant prior Commission proceedings and orders, and workpapers and source documentation used by the Company to develop the proposed DSM/EE billing rates. The review of source documentation included the selection and review of samples of test year program costs included by the Company for recovery through the DSM/EE Rider. Review of these samples was intended to test whether the actual costs included by the Company in the DSM/EE EMF billing rates were either valid costs of approved DSM and EE programs or administrative (common) costs supporting those programs. Mr. Maness stated that the Public Staff was continuing to review its samples of test year program costs, as well as certain other data responses recently received from the Company, and once this review was complete, it would file the results with the Commission.

The Public Staff has now completed its review of test year program costs and has found no material differences between the program costs as filed by the Company and the costs as reflected in the supporting documentation examined. As a result of the review, the Public Staff is of the opinion that the Company has done a good job overall preventing inappropriate costs from being recorded as DSM/EE program costs. Additionally, the Public Staff's review of the remaining data responses does not result in any further recommended adjustments for purposes of this proceeding.

Based on the completion of its review, the Public Staff recommends Commission approval of the proposed Rider C and Rider CE billing rates set forth in the Company's August 13, 2019, Application in this proceeding.

Sincerely,

Electronically Submitted
