OFFICIAL COPY

To: Mr. Chris Ayers, Executive Director, Public Staff N.C. Utilities Commission,
4326 Mail Service Center, Raleigh, N. C. 27699-9001

Subj: Fraud in Docket No. E-2, Sub 1150, Pertains to Cleveland-Matthews Road 230kV
- Transmission Tap Line Project

I object to Duke Energy running a 230kV power line across my property.

I agree with Mr. Canaday, I did not receive notice of Duke Energy Progress letter informing about running a 230kV line and the alternative routes back in early November 2016.

I also agree with using the 500kV transmission line, put a tap line on it, (Cleveland area would never run out of electricity for growth & progress in future). It makes sense; the line would be about 4-miles to the Matthew Road/Polenta Road substation site.

Sincerely,

Sheri Allen Parker
