My name is Rhonda Wright

And I'm disabled and live on a fixed income it's all I can do to afford my electric bill now and it has risen \$100 every month for last 3 months this month was \$368 with my rent and other expenses it's a bill I can't pay all at once I think duke energy takes advantage of us by being the only company that provides us electric if I had a option to go to a different source more affordable I definitely would I vote no rate hike they take enough from us...
