---

Dear Chief Clerk of the Utilities Commission,

November 16, 2018

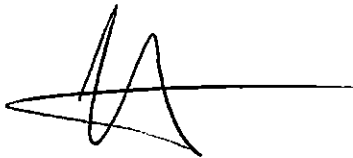

*On behalf of our family and business, I am writing today to encourage you to consider Wilkinson Solar LLC's Exceptions to the Recommended Order Denying the Application for an Amended Certificate of Public Convenience and Necessity - submitted by Invenergy for the Wilkinson Solar project on 11/15/2018, Docket EMP-93 Sub 0.*

*Moreover, I wish to thank Commissioner ToNola D. Brown-Bland for her dissension to the denial, specifically:*

*"In addition, the decision of the panel majority deprives at least one property owner, who was not a party to this proceeding, of his right to the free use and enjoyment of his real property, subject to reasonable regulation, pursuant to a lease agreement he executed with the Applicant."*

*We are the property owners who are affected by the commission's arbitrary ruling against the amended application. This has dangerous implications for real property rights as well as long-term repercussions on our ability to provide for our family and business.*

*Thank you for your consideration,*

*Carl Van Staalduinen  
Member/Manager, Van Staalduinen Brothers LLC*
