Re: Docket No. SP-751, Sub 19 – SunEnergy1, LLC
Application for a Certificate of Public Convenience and Necessity
12-MW_{AC} Solar Photovoltaic Facility, Watson Seed Farm Road, Whitakers, NC

Dear Ms. Mount:

The Public Staff – Electric Division has completed its review of the application for a certificate of public convenience and necessity filed by SunEnergy1, LLC, on August 14, 2013, in the above-referenced docket pursuant to Commission Rule R8-64. As a result of our review, we request that the SunEnergy1, LLC, file the following information to make its application complete:

1. The application lists the facility capacity as 12-MW and 5-MW. SunEnergy1, LLC, must confirm which capacity is correct.
2. SunEnergy1, LLC, must provide the name of the site owner.
3. The application states that the annual electrical generation is 10,000,000 kWh per year. This amount appears to be incorrect, and SunEnergy1, LLC, must provide the correct electrical generation.
