TESTIMONY OF LYNN FEASEL PUBLIC STAFF – NORTH CAROLINA UTILITIES COMMISSION

**MARCH 10, 2023** 

- 1 Q. Please state your name, business address, and present
- 2 **position**.
- 3 A. My name is Lynn Feasel. My business address is 430 North
- 4 Salisbury Street, Dobbs Building, Raleigh, North Carolina. I am the
- 5 Financial Manager of the Water, Sewer, and Telecommunications
- 6 Sections with the Accounting Division of the Public Staff North
- 7 Carolina Utilities Commission (Public Staff).
- 8 Q. Briefly state your qualifications and experience.
- 9 A. My qualifications and experience are included in Appendix A.
- 10 Q. What is the purpose of your testimony?
- 11 Α. The purpose of my testimony in this proceeding is to present the 12 results of my investigation of the Carolina Water Service Inc. of North 13 Carolina's (CWSNC) application in this docket. Specifically, I discuss 14 my calculations of the revenue requirement impact from the Public 15 Staff's estimated operating and maintenance (O&M) expenses to 16 operate the Carteret County Water System after acquisition, and the 17 revenue requirement impact from the Commission's February 10, 18 2023 Order in Docket No. W-354, Sub 398 (Sub 398 Order) 19 approving a fair value of the Carteret County Water System, 20 including transaction and closing costs, as well as \$125,000 tank 21 investment in the first year recommended by witness Junis. The

1	revenue requirement is calculated to reflect the rate impact after the
2	existing Carteret County rates are in place for four years after the
3	acquisition.

### 4 Q. Please explain the Public Staff's calculation of original cost rate

5 base.

9

10

12

13

14

15

16

17

18

19

20

6 A. The Public Staff's calculation of original cost rate base includes the
7 following components: 1) plant in service; and 2) accumulated
8 depreciation of plant in service.

#### Plant in Service

Per the Commission's Sub 398 Order, the approved reasonable and appropriate fair value of the Carteret County Water System was determined to be \$8,728,039, to include \$8,416,000 for the fair value of the system and \$312,039 for transaction and closing costs. Additionally, Public Staff witness Junis also recommends an additional \$125,000 tank investment to be included for 2023. I have calculated the plant in service to include all the above items.

#### Accumulated Depreciation

I calculated accumulated depreciation of the approved fair value of the Carteret County Water System and tank investment through December 31, 2026, as CWSNC proposes to keep the current

- County rates in effect for four years, assuming the first year starts at the beginning of 2023. (Tr. vol. 3, 171-195. from docket W-354, Sub 398).
- Q. Please explain the Public Staff's calculation of O&M expense
   and other estimated expenses.

Α.

The Public Staff calculated projected O&M expenses specifically related to the Carteret County Water System based on two factors:

1) total estimated O&M expenses and other expenses in 2027; and

2) estimated County customer counts in 2027. Since the new County rates are estimated to take effect at the beginning of 2027, the Rate Year 3 O&M expenses in CWSNC's most recent rate case in Docket No. W-354, Sub 400 reflect the most representative ongoing level O&M expenses, since Rate Year 3 ends March 31, 2026, which is close to the date the new County rates will take effect. For most of the O&M expense items, I utilized the total Rate Year 3 O&M expenses divided by the equivalent residential customer (ERC) count of 29,426 to calculate the average O&M expense per customer, then applied the average O&M expense per customer to the projected 1,366 County customers to calculate the estimated

1	O&M expenses for County customers.1 In addition, I calculated
2	depreciation expense based on the depreciation rates recommended
3	by Public Staff witness Junis.

- Q. Please explain the Public Staff's calculation of return on rate
   base.
- A. The Public Staff utilized 6.95% overall return on rate base with 50/50 debt equity capital structure, 4.64% debt rate, and 9.25% return on equity rate to calculate the overall return for rate base. The capital structure, debt rate, and equity rate are identical to the rates recommended by the Public Staff in CWSNC's most recent rate case in Docket No. W-354, Sub 400.

#### 12 Q. What is the Public Staff's proposed revenue requirement?

- 13 A. The Public Staff's recommended revenue requirement based upon
  14 the calculations detailed above is \$1,599,162. This amount
  15 represents the revenue requirement for the first year, i.e., 2027, after
  16 the existing rates last for four years starting from 2023.
- 17 Q. How does the recommended revenue requirement impact utility18 rates per customer?

<sup>&</sup>lt;sup>1</sup> Consistent with CWSNC's calculation of the expenses per ERC, except updated to the customer count provided in response to Public Staff Data Request 41 in the Sub 400 rate case.

- A. The average monthly rate per customer will be \$97.56 in 2027 for the projected 1,366 Carteret County customers. The existing County monthly rate per customer is \$40.25. The testimony of Public Staff witness Junis further discusses the rate impact of the revenue requirements.
- 6 Q. DOES THIS CONCLUDE YOUR TESTIMONY?
- 7 A. Yes, it does.

#### QUALIFICATIONS AND EXPERIENCE

#### LYNN FEASEL

I am a graduate of Baldwin Wallace University with a Master of Business Administration degree in Accounting. I am a Certified Public Accountant licensed in the State of North Carolina. Prior to joining the Public Staff, I was employed by Franklin International in Columbus, Ohio until June 2013. Additionally, I worked for ABB Inc. from September 2013 until October 2016. I joined the Public Staff as a Staff Accountant in November 2016. Since joining the Public Staff, I have worked on rate cases involving water and sewer and natural gas companies, filed testimony and affidavits in various general rate cases, calculated quarterly earnings for Carolina Water Service, Inc. of North Carolina and Aqua North Carolina, Inc., calculated quarterly earnings for various natural gas companies, calculated refunds to consumers from AH4R and Progress Residential and reviewed franchise and contiguous filings for multiple water and sewer companies.
