I, James McDougald Commissioner in my role as Economic Development Director for the Town of Maxton in Robeson County, it is in my opinion that the construction of the Friesian Project will be a benefit to our town, the Robeson County and the public. Its growth within the community to have services ready and able to be used is so important for our future. The upgrade of the electrical network will lead to opportunities unseen, an increase in the tax base and jobs. If businesses are looking for a place to relocate, Robeson County with the gas, the internet and with this project the electrical capacity to meet their needs.

Thank You,

James McDougald

Town of Maxton Commissioner
