Re: E-100 Sub 190

Dear North Carolina Utilities Commission,

Please see the attached petition signed by 3,131 North Carolina residents urging the NC Utilities Commission to reject Duke Energy's Carbon Plan proposal and instead direct the utility to implement a plan that emphasizes clean energy generation to keep energy costs reliable and affordable while meeting the state's carbon reduction goals.

The Utilities Commission should approve a Carbon Plan that prioritizes reliable, affordable clean energy that meets the state's carbon reduction goals like solar, wind, and energy storage technologies.

Please reject Duke Energy's draft plan and require them to submit one which prioritizes clean energy resources.

Thank you,

Kate Fulbright, Affiliate Capacity Manager
NC Conservation Network
