Please reconsider the water rate proposal increases. They are TOO high and will cost our family a fortune.

I am very concerned about the proposed water charge increases proposed for homes at The Point. Our lots are large here and we are required to keep them looking nice. To continue to do so with the proposed increase in charges will definitely negatively effect our family. We have put water sensors on our system and do what we can to conserve. Will this be recognized in some way with a discount on the rates?
