This is to address the up coming request from Duke for another rate increase after imposing one just last month. I am retired living on 2,000. a month, 890. in rent and trying to pay insurance, gas bill, electric bill, phone, and internet on what is left. That does not include groceries or gas for my car. I was presented with a bill of 121.59 for electric an 8.00 leap over last month, we keep our heat at 64 degrees and wear multiple layers of clothes to stay warm. My gas bill leaped from 34.14 to over 101.59 in one month!!!! Please do not grant either an increase or make us pay for their mess in the coal ash clean up!!!! Why should we try and shoulder the burdens when they rake in millions every month?!! Please listen !!! Thank You, Linda Rotella 703 Davis Circle Hendersonville NC

I'm hopeful that Duke Energy's request for rate increases to cover repair costs due to hurricane Florence are declined by 'responsible' committee member/legislatures. By permitting any utility company to increase costs due to a hurricane or other 'disasters' opens the 'door' to future unlimited increases for any reason. Another concern is lack of 'transparency' into which entities NC government pension funds have invested taxpayer money.

I just saw on the new that Duke is asking for another rate increase right after they just got one. Make them take the money out of the slush fund to pay off the North Carolina legislators.
