In the Matter of  
Investigation Regarding the Ability of  
North Carolina's Electricity, Natural Gas,  
and Water/Wastewater Systems to Operate  
Reliably During Extreme Cold Weather

) ORDER MAKING FINDINGS AND  
) DIRECTING ACTIONS RELATED TO  
) IMPACT OF WINTER STORM ELLIOTT  
)

Subsequent to that presentation, the Public Staff conducted an investigation into the circumstances underlying the event and has engaged DEP and DEC in several rounds of discovery.

The purpose of this Order is to present the results of the Commission's assessment of the impact of Winter Storm Elliott on the electric system in North Carolina. Winter Storm Elliott is not the first extreme winter weather event that has impacted North Carolina's electric system, and it certainly will not be the last. As they have done in the past, DEC and DEP must review and revise operations protocols to incorporate lessons learned from each

The Commission's assessment of the impact of Winter Storm Elliott occurs in this docket as it is a continuation of the Commission's review of the ability of the jurisdictional utility systems to operate reliably during extreme cold weather.
