Docket

E-22 Sub 644

Message

We have a significant power load customer coming to the former Edgecombe power plant in Battleboro. We will be buying 50 to 100MW from Dominion Energy and creating jobs and capital investment in the millions. A former coal fired plant this site will be a clean energy user. We would like to re introduce Demand Response to the NC Utility Commission as curtailment at this site will reduce carbon emissions significantly and increase stability to the power grid. It is time for NC to catch up with the rest of PJM and allow DR. Thanks, Brian Ennis
