

**STATE OF NORTH CAROLINA  
UTILITIES COMMISSION  
RALEIGH**

DOCKET NO. E-100, SUB 158

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of  
Biennial Determination of Avoided Cost            )  
Rates for Electric Utility Purchases from        )  
Qualifying Facilities – 2018                            )            ERRATA ORDER

BY THE CHAIR: On October 7, 2019, in the above-captioned proceeding, the Commission issued a Notice of Decision, giving notice of the Commission’s decisions on certain issues in dispute in this proceeding. It has come to the Commission’s attention that decision number 15 erroneously referenced the fuel forecasting approach used “in the 2018 biennial avoided cost proceeding.”

The Chair finds good cause to issue this Errata Order revising decision number 15 in the October 7 Notice of Decision to accurately reflect the Commission’s intent to announce its decision that the fuel forecasting approach used in the 2016 biennial avoided cost proceeding should continue to be used in calculating DEC and DEP’s respective avoided energy rates in this proceeding.

IT IS, THEREFORE, SO ORDERED.

ISSUED BY ORDER OF THE COMMISSION.

This the 11<sup>th</sup> day of October, 2019.
