This is completely insane! Salaries, pensions and Social Security have not gone up enough to keep up with inflation and now this?! My bill went up \$100 in just two months! What are hard working, low income and senior citizens supposed to do?! Give up food and medicine. There is already a large homeless population and I am sure this increase will only add to it. I totally, completely disagree with this increase and these ridiculous riders!

Please help the people of NC with these huge power bills from Duke energy. Our bill has doubled since last year. How do we keep our children warm in the winter if we can't afford a \$500 monthly electric bill?
