Subject: DOCKET NO. W-354 SUB 356

As a resident of Bradfield Farms Sub Division I am stunned by the amount of this increase requested. I object to this increase.

I think a 60% plus request is absurd. It is our own well water located on the Bradfield Farms Sub Division property. I understand maintenance cost increases etc. But nothing to this degree.

Thank you for your time and attention in this matter.

Subject: Bradfield farms water increase

I am a homeowner in bradfield farms and would like to comment on the proposed 60% increases in the price of water. I would like to know what the increase will provide? Currently our community has terrible hard water that wrecks havoc on many people's homes in the neighborhood. Nothing has been mentioned regarding how the increase in price will reflect an increase in service. I think it is pretty much a situation where the water company is gouging the home owners to increase their profits on the backs of the hard working people in this neighborhood.

Good evening,

In regards to:

DOCKET NO. W-354 SUB 356

Application for Rate Increase

Carolina Water Service, Inc.

As a customer of Carolina Water Service, I strongly protest this rate increase. The proposed 61.26% increase for Bradfield Farms is severe and would be an added burden on its customers.

Please do not approve.

Thank you for your time,

Nicoline Howell

Subject: DOCKET NO. W-354 SUB 356 Application for Rate Increase Carolina Water Service, Inc

The Application for Rate Increase Carolina Water Service, Inc is alarming. The average requested rate increase for Bradfield Farms is 63.81% We had a rate increase in September of 2010 and another in December of 2012. The requested amount for the 2012 increase was 40% and the amount approved was 14%. No way should they be granted a rate increase this year as they are playing a game, they just want an increase so they ask for the something large to actually get something like they got in 2012 and 2010.

Please deny their rate increase.

Application for Rate Increase
Carolina Water Service, Inc.

Dear Sir;

As a customer of Carolina Water Service, Inc., and a resident living in the Bradfield Farms Subdivision, I wish to express our extreme opposition of the rate increase of 63.81% rate increase requested by Utilities Inc. We recognize the organization's need to increase their rates, however a 63% plus rate hike will have a financial impact to my family.

Please consider this letter when you are determining the amount of the increase and make the decision to significantly lower the increase. A single digit increase is preferred.

Sincerely,

Dear Sir;

As a customer of Carolina Water Service, Inc., and a resident living in the Bradfield Farms Subdivision, I wish to share my protest of the proposed rate increase to the water services in our neighborhood. Due to work obligations, my husband and I are unable to attend the hearing on August 1st but would like to make it known that we stand with our fellow community members in dismay about such a huge rate increase of 63.81%.

Please advise of any other needed action necessary on my part prior to the Public Hearing.

Sincerely,

Amy & Joe Ladogana
