N.C. Utilities Commission**OFFICIAL COPY**

To whom it may concern,

We know that a rate increase would be coming soon but we as the community did not think that it would be a 120% increase. Each month that we received a water bill from Mr. Ron Hardegree they were paid the fact that he did not pay his bill to the Town of Franklin should not be put on us and causing us to pay bills that we already have. As we understand Mr. Hardegree owes the town over \$44,000.00 this is his bill not the home owners of River Bend Estates. In most cases this rate increase is making the bill for most families in River Bend Estates more than their power bill which is a problem. We at River Bend Estates should not be having the burden of Mr. Hardegree's bill put on our shoulders just so the utilities commission can bail him out. It also appears that the utilities commission is watching out for Mr. Hardegree's interest as we had no one there to be our voice for River Bend Estates which is not right. We believe this is just an effort to put this issue on the backs of the home owners in River Bend Estates and not where it belongs with Mr. Hardegree. If it comes to it we will be seeking legal counsel if need be as we have been told that what you all are doing is not right,

The people of River Bend Estates,

Jeremy Callahan
