for a Certificate of Public Convenience	)	
and Necessity to Provide Wastewater	)	SECOND ORDER FINDING
Utility Service to Edens Lane Subdivision	)	APPLICATION INCOMPLETE
in Pender County, North Carolina, and for	)	
Approval of Rates	)	

BY THE PRESIDING COMMISSIONER: On March 16, 2021, Pluris Hampstead, LLC (Pluris) filed an Application for a Certificate of Public Convenience and Necessity and for Approval of Rates (Application) to provide wastewater utility service to Edens Lane Subdivision in Pender County, North Carolina.

North Carolina Session Law 2023-67, entitled “An Act to Expedite Transfer of Water or Wastewater Public Utilities” (Act), was signed into law by Governor Roy Cooper, having been previously ratified by the North Carolina General Assembly. The Act provides timelines for the Commission’s consideration of applications for grants or transfers of certificates of public convenience and necessity (CPCN) for certain water and wastewater systems. Section 1.(b) of the Act applies to applications for grant or transfer of CPCNs for water and wastewater systems currently pending before the Commission as of June 30, 2023. Among other things, this section requires the Commission to provide notice by July 31, 2023, whether any pending application is complete.

On June 30, 2023, the Commission issued an Order Requiring Report of the Public Staff and Initiating Rulemaking Proceeding which, in part, directed the Public Staff to file on or before July 25, 2023, whether each application identified by the Public Staff as subject to the provisions of Section 1.(b) of the Act is complete and identifying any deficiency in any identified application that is not complete.

On July 24, 2023, the Public Staff filed a letter stating that it deemed the Application filed in this docket “incomplete because the information included in the application and on file with the Commission is too outdated for the Public Staff to make a recommendation and for the Commission to make a determination as to whether the application should be approved.” The Public Staff further stated in its letter that it recommends the Commission determine that the Application is incomplete and direct Pluris to file an amended application form and all required exhibits with information current as of no earlier than December 31, 2022.

On July 28, 2023, the Commission issued an Order Finding Application Incomplete which, in part, directed Pluris to file an amended Application form and all required exhibits with information current as of no earlier than December 31, 2022.

On March 6, 2024, Pluris filed an amended Application.

On March 13, 2024, the Public Staff filed a letter outlining the deficiencies in the Application and recommending that the Commission find the Application incomplete.

Based on the foregoing, and review of the Application and the subsequent filings in the docket by the Public Staff and Pluris, the Presiding Commissioner finds that the Application is incomplete. Pluris shall file information sufficient to address the deficiencies noted in the Public Staff's March 13, 2024 letter. No later than 10 business days after the additional information is filed, the Public Staff shall file with the Commission and serve upon Pluris a notice stating that the Application is considered complete with the additional information, or a notice stating that the Application is incomplete with the deficiencies identified.

IT IS, THEREFORE, SO ORDERED.

ISSUED BY ORDER OF THE COMMISSION.

This the 14th day of March, 2024.
