BY THE CHAIRMAN: On March 18, 2015, Lucky Clays Farm, LLC (Lucky), filed a registration statement pursuant to Commission Rule R8-66 for a new renewable energy facility to be located in Norwood in Stanly County, North Carolina. Lucky stated that its 7.7-kW_{AC} solar photovoltaic (PV) facility will become operational in May 2015.

The filing included certified attestations that: 1) the facility will be in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources; 2) the facility will be operated as a new renewable energy facility; 3) Lucky will not remarket or otherwise resell any renewable energy certificates (RECs) sold to an electric power supplier to comply with G.S. 62-133.8; and 4) Lucky will consent to the auditing of its books and records by the Public Staff insofar as those records relate to transactions with North Carolina electric power suppliers.

On April 13, 2015 the Public Staff filed the recommendation required by Commission Rule R8-66(e) stating that Lucky's registration statement as a new renewable energy facility should be considered to be complete. No other party made a filing with respect to these issues.

Lucky shall annually file the information required by Commission Rule R8-66 on or before April 1 of each year. Lucky will be required to participate in the NC-RETS REC tracking system (www.ncrets.org) in order to facilitate the issuance of RECs.

2. That Lucky shall annually file the information required by Commission Rule R8-66 on or before April 1 of each year.
