Re: *Dominion Energy North Carolina 2018 Fuel Charge Adjustment*
Docket No. E-22, Sub 558

Dear Ms. Jarvis:

Subsequent to the filing of proposed orders in the above-captioned proceeding, Virginia Electric and Power Company, d/b/a Dominion Energy North Carolina (“Company”), became aware that its projected nuclear capacity factor for the twelve months starting February 1, 2019, reflected at Finding of Fact No. 8 and pages 15-16 of its proposed order, was stated incorrectly as 93.9%. The correct projected 2019 nuclear capacity factor is 94.1%. This change does not impact any of the rates proposed in this proceeding to take effect February 1, 2019. The Company has notified the other parties to this proceeding of this clarification and can represent that none of those parties object to the Company’s submission of this letter for clarification purposes.

Please do not hesitate to contact me should you have any questions. Thank you for your assistance with this matter.

Very truly yours,

/s/Mary Lynne Grigg
