**Subject:** Docket E-100, Sub 180CS

I am writing to insist the NCUC follow a 2017 state law that firmly prohibits any change to net metering rules until the Commission conducts a cost-benefit analysis of its value to non-solar power users. The current Duke plan is too complex and doesn't reimburse homeowners properly for the power they provide. At a time when we need to make rooftop solar more accessible, Duke's plan is a big step in the wrong direction. Please reject Duke's plan and conduct a thorough cost-benefit analysis.

Thanks for your consideration,  
Donna Von Bargaen, Ph.D.
