New River Light and
Power Company Industrial
Service
Schedule "I"

Availability

Available only to establishments classified as "Manufacturing Industries" by the Standard Industrial Classification Manual, 1957 or later revision, published by the Bureau of the Budget, United States Government, and only where 85% or more of the total energy consumption of such establishment is used for its manufacturing process.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on a single, contiguous premises.

This schedule is not available for auxiliary or breakdown service, and power delivered hereunder shall not be used for resale or exchange or in parallel with other electrical power, or as a substitute for power contracted for or which may be contracted for, under any other schedule of the Company, except at the option of the Company, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the Company in regard to supplying power are dependent upon its securing and retaining all necessary right-of-way, privileges, franchises, and permits, for the delivery of such power, and the Company shall not be liable to any Customer or Applicant for power in the event that it is delayed in, or is prevented from furnishing the power by its failure to secure and retain such right-of-way, rights, privileges, franchises, and permits.

Type of Service

The company will furnish 60 cycle service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single Phase 120/240 volts, or
Three Phase 208Y/120 volts, or
480Y/277 volts, or Three Phase 3 wire, 240,
480, or

Three Phase 12470Y/7200, or
Three Phase voltages other than the foregoing, but only at the Company's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the Company's specifications.

[This Schedule I is closed and service under it is no longer available.]

Type of Service(cont'd)

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available supply voltage at the Company's office in Boone, NC, before purchasing equipment.

Motors of less than 5 hp may be single phase. All motors of more than 5 hp must be equipped with starting compensators and all motors of more than 25 hp must be of the slip ring type except that the Company reserves the right, when in its opinion the installation would not be detrimental to the service of the Company, to permit other types of motors.

Monthly Rate Schedule "I"

Customer Charge	\$14.52 per month
Demand Charge	\$11.13 per KW
Energy Charge	\$0.050672 per KWH

Determination of Billing Demand

The Company will install a permanent demand meter for all Customers served under this Schedule. The demand for billing purposes each month shall be the maximum integrated thirty-minute demand for the month for which the bill is rendered, but not less than 50 percent of the contract demand, not less than 30 KW.

Power Factor Correction

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the Company may correct the integrated demand in kilowatts for that month by multiplying by 85 percent, and dividing by the average power factor in percent for that month.

Contract Period

Each customer shall enter into a contract to purchase electricity from the Company for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days previous notice of such termination in writing; but the Company may require a contract of longer original term of years where the requirement is justified by the circumstances.

Minimum Bill

The minimum monthly bill for service shall be \$14.52 (Customer Charge).

[This Schedule I is closed and service under it is no longer available.]

Payment

Bills under this schedule are issued on the last working day of the month, and due and payable as of the billing date, or, if not received by said billing date, upon receipt. Bills are past due or delinquent on the 15th day of the month following the billing date. Past due accounts are subject to disconnection after expiration of past due notice.

Re-connection of service after disconnection will be made upon payment of bill in full. A reconnect charge of \$25.00 will be applied during regular working hours and \$60.00 per reconnect will be charged for reconnects made after regular working hours.
