Re: SCH File # 14-E-4600-0451; Application of Carolina Solar Energy II, LLC for Certificate to construct a 4.99 MW Solar Photovoltaic Electric Generating Facility in Martin Co. Docket #SP-2363, Sub 8.

Dear Ms. Mount:

The above referenced environmental impact information has been reviewed through the State Clearinghouse under the provisions of the North Carolina Environmental Policy Act.

Attached to this letter are comments made in the review of this document. The Department of Cultural Resources has requested additional information prior to their concurrence with the above referenced document.

Therefore, pursuant to 1 NCAC 25 .0506(c), this office recommends that supplemental documentation providing the information requested by the Department of Cultural Resources be submitted to the Clearinghouse for further review and comment.

Sincerely,

A handwritten signature in cursive script that reads "Crystal Best".

Crystal Best

MEMORANDUM

To: Crystal Best
State Clearinghouse

From: Lyn Hardison *Lyn*
Division of Environmental Assistance and Customer Service
Environmental Assistance and Project Review Coordinator

RE: 14-0451
Environmental Review – Application of Carolina Solar Energy II, LLC for the Certificate to
construct a 4.99 MW Solar Photovoltaic Electric Generating Facility
Martin County

Date: May 30, 2014

The Department of Environment and Natural Resources has reviewed the proposal for the referenced project. Based on the information provided, several of the agencies have identified permits that may be required. The comments are attached for the applicant review.

If the applicant has any questions pertaining to NCDENR permitting processes, please suggest to the applicant to contact Lyn Hardison, Permit Assistance Coordinator, in the Department's Washington Regional Office, (252)948-3842. The proposed project is located within her geographic working territory.

Thank you for the opportunity to respond.

MEMORANDUM

TO: Lyn Hardison, NCDENR State Clearinghouse Coordinator

FROM: Allison (Schwarz) Weakley, North Carolina Natural Heritage Program *Allison Weakley*

SUBJECT: Environmental Review – Application of Carolina Solar Energy II, LLC for Certificate to construct a 4.99 MW Solar Photovoltaic Electric Generating Facility, Williamston, Martin County, North Carolina

REFERENCE: Project No. 14-0451

Thank you for the opportunity to provide information from the North Carolina Natural Heritage Program (NCNHP) database for the proposed project referenced above. The Natural Heritage Program database does not have any records of rare species or conservation/managed areas within the proposed project area. However, the northern-most portion of the parcel (Martin County PIN #5786-53-9817) in which the project area is located contains a part of the Sweetwater Creek Swamp natural heritage area and a record for a high-quality Cypress Gum-Swamp (Brownwater Subtype) natural community.

Within one mile of the proposed project area, the NCNHP database has element occurrence records for the following rare species:

SCIENTIFIC NAME	COMMON NAME	ELEMENT OCCURRENCE STATUS*	ACCURACY	STATE STATUS*	FEDERAL STATUS*
<i>Coryphaeschna ingens</i>	Regal Darner	Current	Very Low	SR	---
<i>Carex crus-corvi</i>	Crowfoot Sedge	Historical	Medium	SR-P	---
<i>Hottonia inflata</i>	Featherfoil	Historical	Medium	SR-O	---

* For status definitions, please see the Help document at <http://www.ncnhp.org/web/nhp/database-search>.

Also within ca. one mile north of the proposed project area is a record for a high-quality Brownwater Levee Forest (Low Levee Subtype) within the Conine Island natural heritage area; this natural heritage area is owned by the US Fish and Wildlife Service and managed as the Roanoke River National Wildlife Refuge. The occurrence of Crowfoot Sedge has been documented from the Conine Island natural area. Featherfoil has been documented in Sweetwater Creek just west of the parcel and within the Sweetwater Creek Swamp natural heritage area. The record for Regal Darner lacks site-specific locational information, but this species has been documented as occurring in water bodies in Martin County.

The applicant may wish to view the locations of these natural heritages areas and conservation/managed areas by visiting the online map viewer on our website at www.ncnhp.org. Please note that although the NCNHP database does not show records of element occurrences within the proposed project area, it does not necessarily mean that they are not present; it may simply mean that the area has not been surveyed. The use of Natural Heritage Program data should not be substituted for actual field surveys if needed, particularly if the project area contains suitable habitat for rare species.

Feel free to contact me at 919-707-8629 or Allison.Weakley@ncdenr.gov if you have questions or need additional information.

MEMORANDUM

TO: Lyn Hardison, Environmental Assistance Coordinator
Department of Environment and Natural Resources

FROM: Jackie Roddy, P.E., SEPA Review Coordinator

SUBJECT: Environmental Review – Carolina Solar Energy II, LLC
DENR#14-0451

Thank you for providing the Division of Water Resources (DWR) an opportunity to provide comments regarding the Application of Carolina Solar Energy II, LLC for Certificate to construct a 4.99 MW Solar Photovoltaic Electric Generating Facility in Martin Co.

DWR has no objection to the proposed project, but offer the following comments from Anthony Scarbraugh of the DWR Washington Regional Office:

1. If land disturbance exceeds 1 acre, an erosion and sedimentation control plan should be secured. Additionally, compliance with construction stormwater permit conditions (NCG010000) will be required
2. The project documentation did not mention existence or impacts to jurisdictional wetlands, streams, or waters. Be advised that if stream or wetland impacts are proposed, the project will need to secure a 404 permit from the USACOE and obtain a 401 Water Quality Certification from DWR.

If you have any questions about this comment, please contact me at (919) 807-6442 or jackie.rodgy@ncdenr.gov.
Thank you.

DATE: May 8, 2014

RE: CDBG Environmental Review – Project Number 14-0451 – Application of Carolina Solar Energy II, LLC for Certificate to construct a 4.99 MW Solar Photovoltaic Electric Generating Facility located at 19919 US Highway 64, Williamston, NC in Martin County.

I searched the Petroleum Underground Storage Tank (UST) and Non-UST Databases and those databases did not indicate any reported petroleum releases in the proposed project area. I reviewed the above proposal and determined that this project should not have any adverse impact upon groundwater. The following comments are pertinent to my review:

1. The Washington Regional Office (WaRO) UST Section recommends removal of any abandoned or out-of-use petroleum USTs or petroleum above ground storage tanks (ASTs) within the project area. The UST Section should be contacted regarding use of any proposed or on-site petroleum USTs or ASTs. We may be reached at (252) 946-6481.
2. Any petroleum USTs or ASTs must be installed and maintained in accordance with applicable local, state, and federal regulations. For additional information on petroleum ASTs it is advisable that the North Carolina Department of Insurance at (919) 661-5880 ext. 239, USEPA (404) 562-8761, local fire department, and Local Building Inspectors be contacted.
3. Any petroleum spills must be contained and the area of impact must be properly restored. Petroleum spills of significant quantity must be reported to the North Carolina Department of Environment & Natural Resources – Division of Waste Management Underground Storage Tank Section in the Washington Regional Office at (252) 946-6481.
4. Any soils excavated during demolition or construction that show evidence of petroleum contamination, such as stained soil, odors, or free product must be reported immediately to the local Fire Marshall to determine whether explosion or inhalation hazards exist. Also, notify the UST Section of the Washington Regional Office at (252) 946-6481. Petroleum contaminated soils must be handled in accordance with all applicable regulations.
5. Any questions or concerns regarding spills from petroleum USTs, ASTs, or vehicles should be directed to the UST Section at (252) 946-6481.

If you have any questions or need additional information, please contact me at 252-948-3906.

INTERGOVERNMENTAL REVIEW - PROJECT COMMENTS

Project Number: 14-0451 Due Date: 5-28-14

After review of this project it has been determined that the ENR permit(s) and/or approvals indicated may need to be obtained in order for this project to comply with North Carolina Law. Questions regarding these permits should be addressed to the Regional Office indicated on the reverse of the form. All applications, information and guidelines relative to these plans and permits are available from the same Regional Office.

	PERMITS	SPECIAL APPLICATION PROCEDURES or REQUIREMENTS	Normal Process Time (statutory time limit)
<input type="checkbox"/>	Permit to construct & operate wastewater treatment facilities, sewer system extensions & sewer systems not discharging into state surface waters.	Application 90 days before begin construction or award of construction contracts. On-site inspection. Post-application technical conference usual.	30 days (90 days)
<input type="checkbox"/>	NPDES - permit to discharge into surface water and/or permit to operate and construct wastewater facilities discharging into state surface waters.	Application 180 days before begin activity. On-site inspection. Pre-application conference usual. Additionally, obtain permit to construct wastewater treatment facility-granted after NPDES. Reply time, 30 days after receipt of plans or issue of NPDES permit-whichever is later.	90-120 days (N/A)
<input type="checkbox"/>	Water Use Permit	Pre-application technical conference usually necessary	30 days (N/A)
<input type="checkbox"/>	Well Construction Permit	Complete application must be received and permit issued prior to the installation of a well.	7 days (15 days)
<input type="checkbox"/>	Dredge and Fill Permit	Application copy must be served on each adjacent riparian property owner. On-site inspection. Pre-application conference usual. Filling may require Easement to Fill from N.C. Department of Administration and Federal Dredge and Fill Permit.	55 days (90 days)
<input type="checkbox"/>	Permit to construct & operate Air Pollution Abatement facilities and/or Emission Sources as per 15 A NCAC (2Q.0100 thru 2Q.0300)	Application must be submitted and permit received prior to construction and operation of the source. If a permit is required in an area without local zoning, then there are additional requirements and timelines (2Q.0113).	90 days
<input type="checkbox"/>	Permit to construct & operate Transportation Facility as per 15 A NCAC (2D.0800, 2Q.0601)	Application must be submitted at least 90 days prior to construction or modification of the source.	90 days
<input checked="" type="checkbox"/>	Any open burning associated with subject proposal must be in compliance with 15 A NCAC 2D.1900	N/A	60 days (90 days)
<input checked="" type="checkbox"/>	Demolition or renovations of structures containing asbestos material must be in compliance with 15 A NCAC 20.1110 (a) (1) which requires notification and removal prior to demolition. Contact Asbestos Control Group 919-707-5950.		
<input type="checkbox"/>	Complex Source Permit required under 15 A NCAC 2D.0800		
<input checked="" type="checkbox"/>	The Sedimentation Pollution Control Act of 1973 must be properly addressed for any land disturbing activity. An erosion & sedimentation control plan will be required if one or more acres to be disturbed. Plan filed with proper Regional Office (Land Quality Section) At least 30 days before beginning activity. A fee of \$65 for the first acre or any part of an acre. An express review option is available with additional fees.		20 days (30 days)
<input type="checkbox"/>	Sedimentation and erosion control must be addressed in accordance with NCDOT's approved program. Particular attention should be given to design and installation of appropriate perimeter sediment trapping devices as well as stable stormwater conveyances and outlets.		(30 days)
<input type="checkbox"/>	Mining Permit	On-site inspection usual. Surety bond filed with ENR Bond amount varies with type mine and number of acres of affected land. Any acre mined greater than one acre must be permitted. The appropriate bond must be received before the permit can be issued.	30 days (60 days)
<input type="checkbox"/>	North Carolina Burning permit	On-site inspection by N.C. Division Forest Resources if permit exceeds 4 days	1 day (N/A)
<input type="checkbox"/>	Special Ground Clearance Burning Permit - 22 counties in coastal N.C. with organic soils	On-site inspection by N.C. Division Forest Resources required "if more than five acres of ground clearing activities are involved. Inspections should be requested at least ten days before actual burn is planned."	1 day (N/A)
<input type="checkbox"/>	Oil Refining Facilities	N/A	90-120 days (N/A)
<input type="checkbox"/>	Dam Safety Permit	If permit required, application 60 days before begin construction. Applicant must hire N.C. qualified engineer to: prepare plans, inspect construction, certify construction is according to ENR approved plans. May also require permit under mosquito control program. And a 404 permit from Corps of Engineers. An inspection of site is necessary to verify Hazard Classification. A minimum fee of \$200.00 must accompany the application. An additional processing fee based on a percentage of the total project cost will be required upon completion.	30 days (60 days)

14-0451

PERMITS		SPECIAL APPLICATION PROCEDURES or REQUIREMENTS	Normal Process Time (statutory time limit)
<input type="checkbox"/>	Permit to drill exploratory oil or gas well	File surety bond of \$5,000 with ENR running to State of NC conditional that any well opened by drill operator shall, upon abandonment, be plugged according to ENR rules and regulations.	10 days N/A
<input type="checkbox"/>	Geophysical Exploration Permit	Application filed with ENR at least 10 days prior to issue of permit. Application by letter. No standard application form.	10 days N/A
<input type="checkbox"/>	State Lakes Construction Permit	Application fee is charged based on structure size. Must include descriptions & drawings of structure & proof of ownership of riparian property.	15-20 days N/A
<input type="checkbox"/>	401 Water Quality Certification	N/A	60 days (130 days)
<input type="checkbox"/>	CAMA Permit for MAJOR development	\$250.00 fee must accompany application	55 days (150 days)
<input type="checkbox"/>	CAMA Permit for MINOR development	\$50.00 fee must accompany application	22 days (25 days)
<input type="checkbox"/>	Several geodetic monuments are located in or near the project area. If any monument needs to be moved or destroyed, please notify: N.C. Geodetic Survey, Box 27687 Raleigh, NC 27611		
<input checked="" type="checkbox"/>	Abandonment of any wells, if required must be in accordance with Title 15A, Subchapter 2C.0100.		
<input type="checkbox"/>	Notification of the proper regional office is requested if "orphan" underground storage tanks (USTS) are discovered during any excavation operation.		
<input type="checkbox"/>	Compliance with 15A NCAC 2H 1000 (Coastal Stormwater Rules) is required.		45 days (N/A)
<input type="checkbox"/>	Tar Pamlico or Neuse Riparian Buffer Rules required.		
<input type="checkbox"/>	Plans and specifications for the construction, expansion, or alteration of a public water system must be approved by the Division of Water Resources/Public Water Supply Section prior to the award of a contract or the initiation of construction as per 15A NCAC 18C .0300 et. seq. Plans and specifications should be submitted to 1634 Mail Service Center, Raleigh, North Carolina 27699-1634. All public water supply systems must comply with state and federal drinking water monitoring requirements. For more information, contact the Public Water Supply Section, (919) 707-9100.		30 days
<input type="checkbox"/>	If existing water lines will be relocated during the construction, plans for the water line relocation must be submitted to the Division of Water Resources/Public Water Supply Section at 1634 Mail Service Center, Raleigh, North Carolina 27699-1634. For more information, contact the Public Water Supply Section, (919) 707-9100.		30 days

Breathe ...

Don't Burn!

*Smoke from Outdoor Fires
is Unhealthy to Breathe and
Pollutes the Air*

There are a lot of misunderstandings about outdoor or open burning in North Carolina. Some people think it's OK to burn trash in barrels because they've always done it that way. It's not. Others think it's always OK to burn leaves and branches in the fall. But that's not so in cities and counties that pick up yard waste.

The N.C. Division of Air Quality enforces the state open burning rules and many local governments have additional restrictions on outdoor fires. Violating these rules can be expensive -- with fines as high as \$25,000 or more for serious cases or repeat violations.

If It Doesn't Grow, Don't Burn It

The basic message of the state open burning rule is simple: Only leaves, branches and other plant growth can be burned – nothing else. That means no trash, lumber, tires or old newspapers. If local pickup is available, you can't burn even leaves and branches. Do not burn:

- Garbage, paper and cardboard
- Tires and other rubber products
- Building materials, including lumber and wood scraps
- Wire, plastics and synthetic materials
- Asphalt shingles and heavy oils
- Paints, household and agricultural chemicals
- Buildings, mobile homes and other structures
- Anything when the air quality forecast is Code Orange, Red or Purple

What is allowed under the law? Homeowners can burn yard trimmings if it's allowed under local ordinances, no public pickup is available and it doesn't cause a public nuisance. Yard waste must not include logs more than 6 inches in diameter and stumps. Other allowable burning includes campfires, outdoor barbecues and bonfires for festive occasions. Landowners or contractors also can burn vegetation to clear land or rights-of-way, provided that:

- Burning is done on the site of origin.
- Prevailing winds are away from built-up areas and roads. If winds are blowing towards public roads, fires must be at least 250 feet away.
- Fires are at least 500 feet away from occupied buildings.
- Burning is done between 8 a.m. and 6 p.m., and nothing is added outside of these hours.

Other occasions where open burning is allowed – with DAQ approval – include fires for: training fire-fighting personnel; managing forest lands or wildlife habitats; controlling agricultural diseases and pests; and disposing of materials generated by hurricanes, tornadoes and other natural disasters. You may need a permit from the N.C. Forest Service or local governments before you burn, even for allowable purposes. However, such permits do not excuse a person from following the DAQ's open-burning rules.

Smoke Can Hurt You and Others

Why does the state have such strict rules about open burning? Because smoke and soot from outdoor fires can cause serious health problems and pollute the air. Fires also can burn out of control, destroying forests and burning down homes. Smoke from a burning trash pile contains many pollutants that can cause serious health problems and damage the environment.

Although smoke from a fire may not bother you, it could be a nuisance and serious health threat for your neighbors, particularly if they have respiratory conditions such as asthma or emphysema. Potential health effects include: lung and eye irritation, headaches, dizziness, asthma attacks, coughing and even death. For more information on the health effects of pollution from open burning, see the U.S. Environmental Protection Agency's Web site, www.epa.gov/, and do a word search for "open burning."

Do not burn on "Air Quality Action Days," when forecasts are Code Orange, Red or Purple. For air quality forecasts, go to www.ncair.org or call 1(888) 784-6224.

Reduce, Reuse, Recycle

A lot of open burning isn't necessary. Brush can be composted, ground up for mulch, piled up for wildlife, or just left to rot. Newspapers can be recycled. Old attic junk can be given away for someone else to reuse. By making a few sensible choices, you can reduce the amount of throw-away material you create in the first place. The possibilities are endless.

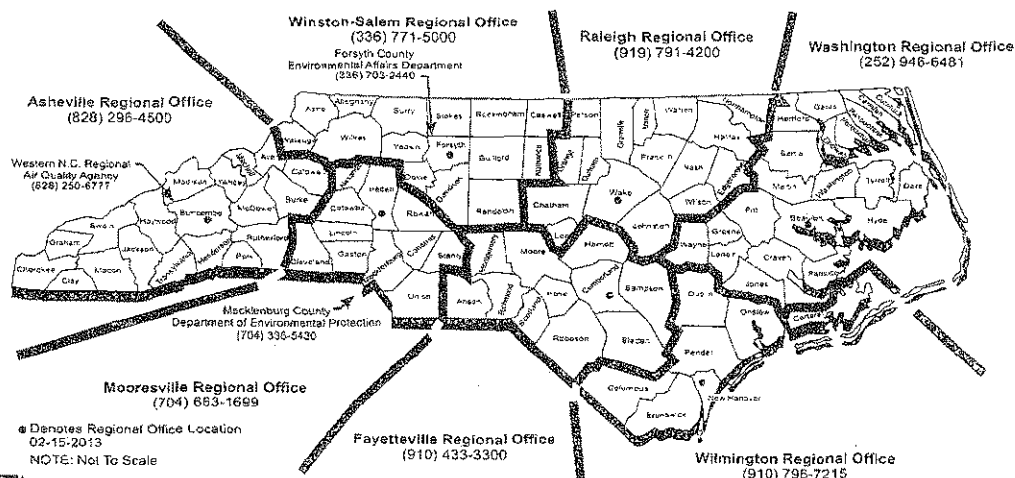

Take a look at what you've decided to burn. Isn't there something else you can do with it? For more information about reducing, reusing or recycling waste, contact the Division of Environmental Assistance and Outreach at 1(877) 623-6748 or www.ncenvironmentalassistance.org

Plan Ahead

You don't need a special permit from the Division of Air Quality for allowable fires. However, you may need a permit from your town or local forest ranger. Open burning can be a nuisance, and local officials may establish rules to reduce that nuisance. Check with local officials before you burn.

Open burning more than 100 feet from your home and within 500 feet of a woodland normally requires a permit from the N.C. Forest Service. The service does not charge for permits. If you want to start an outdoor fire, contact a local forest ranger to find out if and how you can get a permit. You also may contact the Forest Service headquarters at (919) 857-4801 or visit its website, www.ncforestservice.gov/. The service is primarily concerned with fire danger, while the DAQ deals with air pollution. Following one agency's regulations does not guarantee compliance with other agencies.

The N.C. Division of Air Quality is part of the N.C. Department of Environment and Natural Resources. The DAQ is responsible for maintaining and improving the quality of North Carolina's air. For more information about the division and laws for protecting air quality, visit the DAQ's website www.ncair.org or call one of our regional offices shown below.

We have received notification from the State Clearinghouse of the above referenced project. We are unable to comment on the potential effects of this project on cultural resources until we receive further information.

We are unable to locate the project area on our site file maps without a topographic project area map. Please forward a copy of the appropriate USGS quadrangle map to us indicating clearly the exact location of the project area. You do not need to send a copy of the entire quadrangle map. Please send only those areas of the map with the project location marked clearly. Also, please include the name of the quadrangle with the submission.

Thank you for your cooperation and consideration. If you have questions concerning the above comment, contact Renee Gledhill-Earley, environmental review coordinator, at 919-807-6579 or renee.gledhill-earley@ncdcr.gov. **In all future communication concerning this project, please cite the above referenced tracking number.**

Sincerely,

A handwritten signature in cursive script that reads "Renee Gledhill-Earley".
