Please allow me to express my objection to the application for a rate increase. My objection is accompanied with a basic fact that while there isn't and has been no improvement other than the company wanting to deliver profits to its shareholders. As a resident of Carolina Trace we are hostage to the utility at an outrageous rate while they are simply marking up Sanford water with a huge markup while also straining homeowners for unimproved services.

Fundamentally, any increase should have been based of volume and not flat base rate fee increase. This company has a fee structure that any home, regardless of it occupancy, has a base fee far outside any of its comparable competitor companies.

All the best,
David Cummings
