NC Utility Commission

Dear Commission,

I am writing to object to the proposed merger between Duke Energy & Piedmont Natural Gas.

North Carolinians deserve cleaner and cheaper energy options--not more pipelines, fossil fuels, and fracked gas. Please reject this proposed deal! It's bad for business, bad for the future of North Carolina, and bad for our democracy.

Sincerely,

NC Utility Commission

Dear Commission,

I am writing to object to the proposed merger between Duke Energy & Piedmont Natural Gas.

After watching the NC General Assembly and our "I am not a lobbyist" Governor Pat McCrory gut coal ash protections, what could be more "natural" than kissing up to Duke Energy's monopolistic, environmentally injurious effort to control natural gas?

Is our Utilities Commission really THAT CORRUPT??? Is it REALLY interested in representing the PUBLIC INTEREST before that of a greedy, polluting utility?

North Carolinians deserve cleaner and cheaper energy options—not more pipelines, fossil fuels, and fracked gas. Please reject this proposed deal! It's bad for business, bad for the future of North Carolina, and bad for our democracy.

Mr. Finley,

It is time that the commission begin acting in the best interest of the public and not Duke Energy. I am already appalled that the NCUC gave its approval to build a plant based upon such a poor business plan.

What kind of a company promotes a plan with such a limited future? The shale gas fields are rapidly being depleted - it is possible that the bulk of the recoverable gas will be depleted long before this plant is even built.

While I am at it, why is the commission so willing to back Duke's efforts to suppress solar panel installation? Get with the future and begin looking out for the people's interests like you are supposed to be doing.

By not regulating and scrutinizing these corporate mergers and acquisitions more closely we are allowing giant companies to overwhelm the rest of whatever sector they do business in. It won't be long before we have only a handful of companies delivering whatever commodity they deal in. NC Utility Commission

Dear Commission,

I am writing to object to the proposed merger between Duke Energy & Piedmont Natural Gas.

North Carolinians deserve cleaner and cheaper energy options—not more pipelines, fossil fuels, and fracked gas. Please reject this proposed deal! It's bad for business, bad for the future of North Carolina, and bad for our democracy.

Sincerely,

Betsy Hester

This is horrible for the residents of NC who will have no choice for energy and will succumb to even higher energy bills. If you move forward with this, then you also need to restore the incentives for converting to renewable energy sources along with opening up to programs that will make solar panels more affordable, such as leasing.
