New River Light and Power Company
Residential Service
Schedule "R"

Availability

Available to customers who are classified as residential customers; these being individual residential customers in residences, mobile homes, or individually metered apartments.

This schedule is not available for (1) breakdown, standby, or supplementary service, (2) temporary service, or (3) resale, except to lessors of real property who possess and deliver to the Company a Certificate of Authority to Resell Electric Service in accordance with Chapter 62, Section 110(h) of the General Statutes of North Carolina and Chapter 22 of the Rules and Regulations of the North Carolina Utilities Commission.

Type of Service

The company will furnish 60 cycle service through one meter, at one delivery point, at one of the following approximate voltages where available:

- Single Phase 120/240 volts, or
- Three Phase 120/208Y volts, or
- Other available voltages at the Company's option.

Deleted: 208Y/120

Deleted: Three Phase 120/240 volts

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available supply voltage at the Company's office in Boone, NC, before purchasing equipment.

Motors of 5 hp or less shall be of single phase service unless three phase service is already available.

Monthly Rate Schedule "R"

Basic Facilities Charge	<u>\$14.50 per month</u>
Energy Charge:	
NRLP Distribution Charge	<u>\$0.032548 per kWh</u>
Wholesale Power Supply Charge	<u>\$0.073646 per kWh</u>

Deleted: 12.58

Deleted: \$0.090044 per kWh

Minimum Bill

The minimum monthly bill for service shall be \$14.50 (Basic Facilities Charge).

Deleted: 12.58

Rider

The following rider is applicable to service supplied under this schedule. The currently approved kWh charges (increment or decrement) for the following rider will be added to the kWh Energy Charge shown above in the determination of the monthly bill.

PPAC, Purchased Power Adjustment Clause,

Deleted: &CACR

Deleted: and Coal Ash Cost Recovery

Payment

Bills under this schedule are due and payable as of the billing date, or, if not received by said billing date, upon receipt. Bills are considered past due twenty-five (25) days after the billing date. Past due accounts are subject to disconnection after expiration of past due procedures. Bills that are past due will be assessed a one percent (1%) late payment charge.

Re-connection of service after disconnection will be made upon payment of bill in full. A reconnect charge of \$11.50 will be applied,

Deleted: 25.00

Deleted: during regular working hours and \$60.00 per reconnect will be charged for reconnects made after regular working hours. Regular working hours are between 8:00 a.m. and 5:00 p.m., Monday through Friday (except holidays).

New River Light and Power Company
Commercial General Service
Schedule "G"

Availability

Available to customers who have commercial, general, or temporary service with a monthly usage demand less than 30 kW. In the event a customer billed on this schedule incurs a demand of 30 kW or more for two months during a twelve-month period, the customer will be served under the "Commercial Demand Service - Schedule GL"

This schedule is not available for (1) breakdown, standby, or supplementary service, or (2) for resale.

Type of Service

The company will furnish 60 cycle service through one meter, at one delivery point, at one of the following approximate voltages where available:

- Single Phase 120/240 volts, or
- Three Phase 120/208Y volts, or 277/480Y volts, or
- Other available voltages at the Company's option.

Deleted: 208Y/120
 Deleted: 480Y/277
 Deleted: Three Phase 240, 480 volts

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available supply voltage at the Company's office in Boone, NC, before purchasing equipment.

Motors of less than 5 hp may be single phase. All motors of more than 5 hp must be equipped with starting compensators and all motors of more than 25 hp must be of the slip ring type except that the Company reserves the right, when in its opinion the installation would not be detrimental to the service of the Company, to permit other types of motors.

Monthly Rate Schedule "G"

Basic Facilities Charge	\$17.50 per month
Energy Charge:	
NRLP Distribution Charge	\$0.033071 kWh
Wholesale Power Supply Charge	\$0.079142 per kWh

Deleted: 42
 Deleted: \$0.086683 per kWh

Minimum Bill

The minimum monthly bill for service shall be \$17.50 (Basic Facilities Charge).

Deleted: 42

Rider

The following rider is applicable to service supplied under this schedule. The currently approved kWh charges (increment or decrement) for the following rider will be added to the kWh Energy Charge shown above in the determination of the monthly bill.

Deleted: &CACR

Deleted: and Coal Ash Cost Recovery

Payment

Bills under this schedule are issued on the last working day of the month, and due and payable as of the billing date, or, if not received by said billing date, upon receipt. Bills are considered past due on the 15th day of the month following the billing date. Bills are considered delinquent twenty-five (25) days after the billing date and will be assessed a one percent (1%) late payment charge. If any bill is not paid, the Company has the right to suspend service.

Re-connection of service after disconnection will be made upon payment of bill in full. A reconnect charge of \$11.50 will be applied,

Deleted: 25.00

Deleted: during regular working hours and \$60.00 per reconnect will be charged for reconnects made after regular working hours.¶
Regular working hours are between 8:00 a.m. and 5:00 p.m., Monday through Friday (except holidays).

New River Light and Power Company
Commercial Demand Service
Schedule "GL"

Availability

Available to customers who have commercial, general, or temporary service with a minimum monthly usage demand of 30 kW. In the event a customer billed on this schedule has a demand less than 30 kW for twelve consecutive months, the customer will be served under the "Commercial General Service -Schedule G".

Deleted: In the event a customer billed on this Schedule has a monthly load factor of 65% or higher for six (6) months over the previous twelve (12) months, the customer will be served under the "Commercial Demand High Load Factor Service - Schedule GLH"....

This schedule is not available for (1) breakdown, standby, or supplementary service, or (2) for resale.

Type of Service

The company will furnish 60 cycle service through one meter, at one delivery point, at one of the following approximate voltages where available:

- Single Phase 120/240 volts, or
- Three Phase 120/208Y volts, or 277/480Y volts, or
- Other available voltages at the Company's option.

Deleted: 208y/120

Deleted: 480Y/277

Deleted: Three Phase 240, 480 volts

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available supply voltage at the Company's office in Boone, NC, before purchasing equipment.

Motors of less than 5 hp may be single phase. All motors of more than 5 hp must be equipped with starting compensators and all motors of more than 25 hp must be of the slip ring type except that the Company reserves the right, when in its opinion the installation would not be detrimental to the service of the Company, to permit other types of motors.

Monthly Rate Schedule "GL"

- Basic Facilities Charge \$30.00 per month
- Demand Charge
- NRLP Distribution Charge \$2.27 per kW
- Wholesale Power Supply Charge \$6.00 per kW
- Energy Charge:
- NRLP Distribution Charge \$0.020228 per kWh
- Wholesale Power Supply Charge \$0.059790 per kWh

Deleted: 23.22

Deleted: \$8.27 per kW

Deleted: \$0.054222 per kWh

New River Light and Power Company
ASU Campus Service
Schedule "A"

Availability

This schedule is available only for a single point of delivery for Appalachian State University's main campus location.

Type of Service

For the individual delivery points throughout the ASU Campus, the company will furnish 60 cycle service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single Phase	120/240 volts, or
Three Phase	<u>120/208Y volts, or 277/480Y volts, or</u>
Three Phase	240, 480 volts
Three Phase	4160Y/2400, 12470Y/7200

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available supply voltage at the Company's office in Boone, NC, before purchasing equipment.

Motors of less than 5 hp may be single phase. All motors of more than 5 hp must be equipped with starting compensators and all motors of more than 25 hp must be of the slip ring type except that the Company reserves the right, when in its opinion the installation would not be detrimental to the service of the Company, to permit other types of motors.

Monthly Rate Schedule "A"

Distribution Facilities Charge	\$16.97 per kW
Power Demand Charge	\$7.87 per kW
Power Energy Charge	\$0.040121 per kWh

Billing Demand for Distribution Facilities Charge

The average maximum 15-minute kW demand measured at the ASU Substation meters plus the kW demand measured at any on-site generation in excess of 10 kW serving ASU Campus load at the same time as the ASU Substation kW demand.

Billing Demand for Power Demand Charge

The average maximum 15-minute kW demand measured at the ASU Substation meters.

Deleted: New River Light and Power Company Commercial Demand High Load Factor Service Schedule "GLH"¶

Availability¶
Available to customers who have commercial or general service with a monthly usage demand of 30 kW or more for two months and a monthly load factor of 65% or higher for six months over the previous twelve months. In the event a customer billed on this schedule has a demand less than 30 kW for twelve consecutive months, the customer will be served under the "Commercial General Service - Schedule G". In the event a customer's load factor falls below 65% for more than six months over the previous twelve consecutive months, the customer will be served under the "Commercial Demand Service - Schedule GL".¶

This schedule is not available for (1) breakdown, standby, or supplementary service, (2) for resale, or (3) for temporary service.¶

New River Light and Power Company
Security Lighting Service
Schedule "OL"

Availability

This service is available to all customers of the Company to be used to light outdoor areas, private streets, and driveways. The lighting units may be mercury vapor, sodium vapor, or metal halide bracket mounted on Company owned poles.

Service

Company shall provide all materials and install, operate, maintain, and provide energy required for illumination of the lighting units from dusk to dawn. The Company will offer as standard units the following lamps installed on wooden poles at the monthly rate approved by the North Carolina Utilities Commission:

<u>Fixtures</u>	<u>Mounting Arm</u>
100 Watt Sodium Vapor	Short Arm
175 Watt Mercury Vapor	Gooseneck
400 Watt Mercury Vapor	Cobra Head
150 Watt Sodium Vapor	Cobra Head
250 Watt Sodium Vapor	Cobra Head
400 Watt Metal Halide	Short Arm

Monthly charge per fixture identified by Schedule "OL" Tariff approved by Commission

Condition of Service

All facilities necessary to provide this service including fixtures, lamps, controls, poles, other structures, hardware, transformers, and conductors will be owned and maintained by the Company. The Company will replace burned-out lamps and otherwise maintain the luminaries during regular working hours as soon as practicable following notification by the Customer of the necessity.

All Customers must enter into a contract with the Company prior to the Company providing requested service.

All Customers will provide deposit security of 50% of the charges, based on the current retail rate, for the contract period unless Customer owns the premises, provide a guarantor and/or has through payment history established a good credit rating as defined by having no more than two (2) delinquent payments during preceding twelve (12) months. Company will pay interest on the deposit at an annual rate of 8% beginning with the 91st day of service.

Should Customer request termination of service prior to completing contract time, Customer will be responsible for payment of charges for the remaining months using the monthly rate at the time contract was signed. This payment is due in lump sum at the time of requesting discontinuance of service.

Temporary Service

Request for temporary lighting which includes seasonal customer, carnivals, flea markets, fairs, etc. will be available at the Company's option. The Customer will be subject to an in-and-out charge, which will consist of the labor to install and remove, material installed less the anticipated value at removal, to be paid in advance. No contract will be required for service.

New River Light and Power Company
Purchased Power Adjustment Clause,
Schedule "PPAC"

Deleted: and Coal Ash Cost Recovery Rider
Deleted: &CACR

As of January 1, 2021, New River Light & Power Company ("NRLP") receives wholesale power supply from Carolina Power Partners LLC ("CPP").

Deleted: Blue Ridge Electric Membership Corporation ("BREMCO") which, in turn, receives power supply from Duke Energy Carolinas ("DEC"). The cost of wholesale power from DEC is passed through to NRLP from BREMCO.

Purchased Power Adjustment Clause

Service supplied under NRLP's rate schedules are subject to approved purchased power cost adjustments, if any, over or under the rate set forth in the approved rate schedules. Adjustments are made pursuant to North Carolina General Statute 62-133.2 and North Carolina Utilities Commission Rule R8-55 as ordered by the North Carolina Utilities Commission.

All electric services supplied under NRLP's rate schedules are subject to an increment per kWh as filed annually by NRLP and approved by the North Carolina Utilities Commission, with interim adjustments as necessary, also approved by the North Carolina Utilities Commission.

Deleted: Effective April 1, 2018, the base purchased power cost established in Docket No. E-34, Sub 46 is \$0.062846 per kWh which is included in the energy charges of NRLP's rate schedules.†
Deleted: is

Deleted: Coal Ash Cost Recovery†
Effective July 1, 2017, the power supply agreement between DEC and BREMCO was amended to allow recovery of costs to comply with (i) the North Carolina Coal Ash Management Act 2014 N. C. Sess. Laws 122; 2014 N.C. Ch. 122; 2013 N. C. SB 729, as amended June 2015 by the Mountain Energy Act, N. C. SB716 as further amended by the Drinking Water Protection/Coal Ash Cleanup Act, House Bill 603/S.L. 2016-95, and (ii) The Hazardous and Solid Waste Management System: Disposal of Coal Combustion Residuals from Electric Utilities promulgated by the United States Environmental Protection Agency and published on April 17, 2015, 80 Fed. Reg 21302, as may be amended from time to time ("Coal Ash Costs").†
This Coal Ash Cost Recovery ("CACR") provides for a charge or credit to NRLP's customers to recover charges from BREMCO for recovery of DEC's Coal Ash Costs. This Schedule CACR is applicable to all NRLP Rate Schedules. This adjustment is not included in the rate schedules of NRLP and therefore, must be applied to the bill as calculated under the applicable rate for bills rendered on, or after, April 1, 2018.†
† ALL SERVICE CLASSES ... [3]

New River Light and Power Company
Miscellaneous Service Charges
Schedule "MS"

Deposit:

The Company may require a deposit before beginning service or before reestablishing service or in the event of a material change of circumstances as allowed by the Rules and Regulations of the North Carolina Utilities Commission (Commission). The amount of the deposit and the interest paid on deposits will be in accordance with the Rules and Regulations of the Commission. The Company may require an increase or allow a decrease in the deposit if changes occur in the amount of bills rendered to the Customer. The Company may refund a deposit at any time. When service is discontinued, the Company will refund the deposit plus any accumulated interest, less any unpaid bills.

Connect Charge:

When the Company first supplies electricity under any rate schedule, the Customer shall pay the Company a connection charge of \$11.50. This charge shall become a part of the first bill rendered to Customer for electricity supplied at such premises. The connection charge applies to any new service set up which requires a field trip to read the meter, install a meter, connect a meter or install new facilities.

Connect Charge Commercial Temporary:

When the Company supplies temporary electricity under Schedule G or Schedule GL, the Customer shall pay the Company a connection charge of \$15.00. This charge shall become a part of the first bill rendered to Customer for electricity supplied at such premises. The connection charge applies to any commercial temporary service which requires a field trip to read the meter, install a meter, connect a meter or install new facilities.

Reconnect Fee:

In case of discontinuance of service for any reason except repairs or other necessary work by the Company, the Customer shall pay the Company a reconnect charge of \$11.50 before service will be restored.

Returned Payment Fee:

When a check, electronic check, bank draft, debit card or credit card tendered for payment of a Customer's account, is subsequently returned by a financial institution due to a failure of the issuer's financial institution to honor the payment for good and sufficient reason, a \$21.00 fee will be charged to the Customer for each such returned

Deleted: as follows:
Regular Working Hours - If reconnect service is between 8:00 a.m. and 5:00 p.m., Monday through Friday (except holidays), the fee will be \$25.00.
After Regular Working Hours - If reconnect service is during the evenings, weekends or holidays, the fee will be \$60.00.

payment. The Company, at its option for good cause, may refuse to accept a check, electronic check, debit card, or credit card tendered as payment on a Customer's account.

Extra Facilities Charge:

At the request of the Customer, the Company will furnish, install, own and maintain facilities which are in addition to those necessary for delivery of service at one point, through one meter, at one voltage, in accordance with the applicable rate schedule. Such additional facilities will be in accordance with the following provisions:

1. "Extra Facilities" shall consist of the following as may be required: voltage regulators, circuit breakers, duplicate service, transformers, substations, connecting lines, off-site facilities or other equipment installed for the use of the contracting Customer, other than facilities which the Company would furnish to the Customer without cost under its applicable rate schedule.
2. The monthly "Extra Facilities Charge" shall be equal to 0.9% of the installed cost of the facilities, but not less than \$25, shall be billed to the Customer in addition to the billing for energy, or for demand plus energy, in accordance with the applicable rate schedule.
3. The "installed cost of extra facilities" shall be the original cost of material used, including spare equipment, if any, plus applicable labor, transportation, stores, tax, engineering and general expenses, all estimated if not known.

The Company shall have the option of refusing requests for extra facilities if, on its own determination, the requested facilities are not feasible, or may adversely affect the Company's service to other customers.

New River Light and Power Company
LED Lighting Service
Schedule "LEDL"

Availability

This service is available to all customers of the Company to be used to light outdoor areas, private streets, and driveways.

Condition of Service

All facilities necessary to provide this service including fixtures, lamps, controls, poles, other structures, hardware, transformers, and conductors will be owned and maintained by the Company unless otherwise noted. For all Company owned facilities, the Company will replace burned-out lamps and otherwise maintain the luminaries during regular working hours as soon as practicable following notification by the Customer of the necessity.

All Customers must enter into a contract with the Company prior to the Company providing requested service.

All Customers will provide deposit security of 50% of the charges, based on the current retail rate, for the contract period unless Customer owns the premises, provide a guarantor and/or has through payment history established a good credit rating as defined by having no more than two (2) delinquent payments during preceding twelve (12) months. Company will pay interest on the deposit at an annual rate of 8% beginning with the 91st day of service.

Should Customer request termination of service prior to completing contract time, Customer will be responsible for payment of charges for the remaining months using the monthly rate at the time contract was signed. This payment is due in lump sum at the time of requesting discontinuance of service.

Temporary Service

Request for temporary lighting which includes seasonal customer, carnivals, flea markets, fairs, etc. will be available at the Company's option. The Customer will be subject to an in-and-out charge, which will consist of the labor to install and remove, material installed less the anticipated value at removal, to be paid in advance. No contract will be required for service.

Rider

The following rider is applicable to service supplied under this schedule. The currently approved kWh charges (increment or decrement) for the following rider will be added to the monthly fixture charges based on the estimated kWh usage per light fixture.

PPAC, Purchased Power Adjustment Clause,

~~Deleted: &CACR~~

~~Deleted: and Coal Ash Cost Recovery~~

Payment

Bills under this schedule are due and payable as of the billing date, or, if not received by said billing date, upon receipt. Bills are considered past due twenty-five (25) days after the billing date. Past due accounts are subject to disconnection after expiration of past due procedures. Bills that are past due will be assessed a one percent (1%) late payment charge.

Re-connection of service after disconnection will be made upon payment of bill in full. A reconnect charge of \$11.50 will be applied.

~~Deleted: 25.00~~

~~Deleted: during regular working hours and \$60.00 per reconnect will be charged for reconnects made after regular working hours. Regular working hours are between 8:00 a.m. and 5:00 p.m., Monday through Friday (except holidays).~~

New River Light and Power Company
Non-Standard Meter Rider
Schedule "NSMR"

Availability

Available to customers of New River Light & Power Company (NRLP).

Applicability

This Rider is available on a voluntary basis to customers who elect to have a non-standard meter that requires a manual meter read in lieu of a standard AMI meter which does not require a manual meter read ("Opt-Out Customer"). Customers who fail to provide reasonable access to premises, request to Opt-Out or otherwise prevent replacement of the non-standard meter with a standard AMI meter shall be deemed to have elected to take service under Rider NSMR, provided they are not prohibited from doing so pursuant to the "Limitation of Service" provision of this NSMR. Service under this schedule shall be provided with a non-communicating meter of NRLP's choice.

Limitation of Service

This Rider is available to customers who have not tampered with the electric meter service or used service in a fraudulent or unauthorized manner. This Rider will remain available as long as non-standard meter options are reasonably available and are supported by the manufacturers.

Charges

All charges and provisions of the Opt-Out Customer's otherwise applicable electric service rate schedule shall apply. In addition, Opt-Out Customers who elect service under this Rider will be charged an Initial Setup Fee and a recurring Monthly Surcharge.

Initial Setup Fee: \$77.00

Monthly Surcharge: \$14.25

Term of Service

Service under this Rate Schedule NSMR shall be for a minimum of one (1) billing period. An Opt-Out Customer wishing to discontinue this service will be subject to the current Reconnect Fee to reinstate the customer into NRLP's standard metering service.

New River Light and Power Company
Net Billing Rider for Renewable Energy Facilities
Schedule "NBR"

Availability

This Rider is available to Customers on New River Light and Power Company's (NRLP) Rate Schedules R, G and GL who operate a photovoltaic (PV) generation source of energy that is installed on the Customer's side of the delivery point, for the Customer's own use, interconnected with and operated in parallel with the Company's distribution system.

The rated AC capacity of the PV generation source shall not be designed to exceed the Customer's anticipated annual peak kilowatt demand or 20 kilowatts (kW) for a residential system or 1,000 kW for a non-residential system, whichever is less. Any PV generation source connected in parallel operation with service from NRLP and located on the Customer's premises must be manufactured, installed, and operated in accordance with governmental and industry standards and must fully conform with the NRLP's applicable interconnection standards.

Monthly Rate

The bill amount computed under the applicable rate schedule, including any other applicable riders. Energy Charges (or Credits) shall be based on the net kilowatt hours (kWh) purchased from or delivered to NRLP for the bill month. For any bill month during which the Energy Charges are a net credit, the respective Energy Charges for the month shall be zero. Any Energy Credits shall carry forward on the following month's bill. Effective on January 1 of each year, any accrued credit will be reset to zero. Credits shall not offset the Basic Facilities Charge or the Demand Charge.

NRLP will charge Customers a Standby Supplemental Charge (SSC) for distribution facilities required to serve the Customer's full load at times when the PV generation energy source is not available. The monthly bill amount to Customers under this NBR Rider will include an SSC.

Standby Supplemental Charge: A monthly per kW charge applied to the rated AC capacity of the PV generation energy source installed will be applied as follows:

Customers receiving service under Schedule R - \$5.92 per kW

Customers receiving service under Schedule G - \$6.39 per kW

Customers receiving service under Schedule GL - \$3.59 per kW

For the purposes of this Schedule NBR, the rated AC capacity for the application of the SSC shall be 1) the maximum output of the Customer's PV system as measured by NRLP from those Customers currently served under NRLP's existing buy all/sell all rate schedule or 2) the designed AC kW output of the PV system as provided by the Customer's solar installer as included in the interconnection request.

Any renewable energy credits (RECs) associated with electricity delivered to the grid by the Customer under Schedule NBR shall be retained by the Customer.

Rider Requirements and Conditions

1. The Customer must complete an interconnection request and submit same to NRLP prior to receiving service under this Rider.
2. In the event NRLP determines that it is necessary to install a dedicated transformer or other equipment to protect the safety and adequacy of electric service provided to other customers, the Customer shall pay an Extra Facilities Charge as identified in NRLP's Schedule MS.
3. By subscribing to this Rider, the Customer grants NRLP access to Customer's property and premises as necessary to test the Customer's PV generation energy source for compliance with the applicable interconnection standards of NRLP. Should it be determined that the Customer's installation is in violation, NRLP will disconnect the PV generation energy source from NRLP's distribution system. The PV generation energy source will remain disconnected until the installation is brought back into compliance.
4. If the Customer is not the owner of the premises receiving electric service from NRLP, NRLP shall have the right to require that the owner of the premises give satisfactory written approval of the Customer's acceptance of service under this Rider.

Contract Period

The Initial Period for service under this Rider shall be one year and thereafter shall be renewed for successive one-year periods. After the initial period, the Customer may terminate service under this Rider by giving at least sixty (60) days prior written notice to NRLP of such termination. NRLP may terminate this service under the terms of the Customer's applicable Rate Schedule or for violation of any requirement or condition on this Rider.

New River Light and Power Company
Interruptible Rate Rider
Schedule "IR"

Availability

This Rider is available in conjunction with New River Light and Power Company's (NRLP) Rate Schedule GL to Customers who have the ability to interrupt all or a portion of their connected load to NRLP's system.

The Customer must have a total load requirement of at least 2 MW and have the ability to curtail at least 75% of its electric load.

Monthly Interruptible Rate

If the Customer is successful in reducing its demand from NRLP's system during the actual hour of NRLP's monthly coincident peak (CP) demand for purposes of calculating its capacity costs from Carolina Power Partners, the customer will receive a credit of \$14.26 per kW of load reduced at the time of the CP. NRLP will assist the Customer with estimating these CP times each month to reduce the number of curtailable hours but does not guarantee that the Customer's demand will be reduced on the actual CP hour for each month. The calculation of this credit will be determined no later than the 15th of the month following the month of curtailment.

The application of any credit under Schedule IR will occur only in the event the Customer is able to curtail load at the time of the coincident peak. No credits will be applied if the Customer is unable to curtail or if the curtailment does not align with the coincident peak.

New River Light and Power Company
Purchased Power from Renewable Energy Facilities (a.k.a. Buy All / Sell All)
Schedule "PPR"

Availability

This Schedule is available to Sellers who operate a photovoltaic (PV) generation energy source in parallel with New River Light and Power Company's (NRLP) system. The Seller's PV generation energy source must be located at a site that would allow interconnection with NRLP's distribution system.

The rated AC capacity of the PV generation energy source shall not be designed to exceed 1,000 kilowatts (kW). The PV generation energy source connected in parallel operation with NRLP must be manufactured, installed, and operated in accordance with governmental and industry standards and must fully conform with the NRLP's applicable interconnection standards.

For generation facilities, other than those described above, and falling under the definition of Qualifying Facilities as defined by the Federal Energy Regulatory Commission's Order No. 70 under Docket No. RM79-54 and 18 C.F.R. §§ 292.203, 292.204, and 292.205, the reimbursement for purchased power will be based on NRLP's Schedule Rate SPP Demand, Schedule Rate SPP No Demand and Schedule Rate SP Fixed as established in North Carolina Utilities Commission Docket E-100, Sub 175 and as adjusted in future approvals of the North Carolina Utilities Commission.

Type of Service

NRLP will receive 60 cycle service through one meter, at one delivery point, at one of the following approximate voltages where available:

- Single Phase 120/240 volts, or
- Three Phase 120/208Y volts, or
- Other available voltages at NRLP's option.

The type of service supplied will depend upon the voltage available. Prospective Sellers should ascertain the available system voltage at NRLP's office in Boone, NC, before purchasing equipment.

Monthly Rate

NRLP shall pay for energy delivered to NRLP under this Schedule at the energy credits set forth below.

Energy Credit: \$0.060938 per kWh per month.

This Energy Credit is subject to change upon North Carolina Utilities Commission approval of each of NRLP's future Purchased Power Adjustment Clause filings as referenced in NRLP's Schedule "PPAC".

Any renewable energy credits (RECs) associated with electricity delivered to the grid by the Seller under Schedule PPR shall be retained by the Seller.

Rider Requirements and Conditions

1. The Seller must complete an interconnection request and submit same to NRLP prior to receiving service under this Rider.
2. In the event NRLP determines that it is necessary to install a dedicated transformer or other equipment to protect the safety and adequacy of electric service provided to other customers. The Seller shall pay an Extra Facilities Charge as identified in NRLP's Schedule MS.
3. By subscribing to this Rider, the Seller grants NRLP access to the Seller's property and premises as necessary to test the Seller's PV generation energy source for compliance with the applicable interconnection standards of NRLP. Should it be determined that the Seller's installation is in violation, NRLP will disconnect the PV generation energy source from NRLP's distribution system. The PV generation energy source will remain disconnected until the installation is brought back into compliance.
4. If the Seller is not the owner of the premises where the PV generation energy source is located, the owner of the premises, at NRLP's request, must give satisfactory written approval of the Seller's acceptance of service under this Rider.

Contract Period

The Initial Period for service under this Schedule shall be one year and thereafter shall be renewed for successive one-year periods. After the initial period, the Seller may terminate service under this Schedule by giving at least sixty (60) days prior written notice to NRLP of such termination. NRLP may terminate this service for violation of any requirement or condition of this Rider.

New River Light and Power
Prepaid Service Rider
Schedule "PSR"

Availability

This rider is applicable on a voluntary basis to customers who receive service under the Residential Service Schedule R and that meet the special provisions of this rider. This Schedule PSR is effective for service on and after July 1, 2022.

Monthly Rate

The monthly rates as stated in the Residential Service Schedule R for electric service will apply.

Daily Charges

On a daily basis, charges for electric service will be deducted from the customer's prepaid balance. Daily charges will include charges for daily kWh consumption in accordance with Schedule R, plus a prorated share of the applicable Basic Facilities Charge assuming 30.4 days per month.

Special Provisions

1. Customers utilizing one or both of the following options are not eligible for this rider:
 - a. Identified by special code pursuant to North Carolina Utilities Commission Rule R12-11(q); and
 - b. Currently utilizing automatic bank drafts for monthly bill payments.
2. Customers must maintain the ability for the Company to contact them either through an email or text for purposes of receiving alerts regarding account balances and service status.
3. Security deposits are not required for service under this rider. Any security deposit the customer has with the Company when they elect to receive service under this rider will be utilized to initially fund the customer's prepaid account with a required minimum prepayment credit as set forth in Special Provision 5. Any security deposit in excess of the required minimum prepayment credit will be refunded in accordance with the Company's deposit policy set forth in Schedule MS. If, after applying the deposit to initially fund the customer's prepaid account, the customer still has an outstanding balance, such outstanding balance will be considered a debt balance.

4. To be eligible for this rider, the beginning debt balance must be less than \$200. If a debt balance of less than \$200 exists, 50% of each payment received on the prepaid account will be applied to the debt balance until the debt balance is fully paid, with the remaining 50% of the payment applied to the customer's prepaid balance.
5. The minimum prepayment required to set up a prepaid account is \$25.00.
6. Customers under this rider are required to prepay for all electric service and fees for which they are billed, and the customer can setup multiple balance notification options that best fits their needs. This can include a daily balance notification. In addition to the daily balance notifications, if the customer's prepaid balance drops below zero, electric service will be disconnected no earlier than 10:00 a.m. and typically no later than 2:00 p.m. on the next business day. A business day includes Monday, Tuesday, Wednesday, Thursday and Friday, but excludes a state or federal holiday. Disconnection will be postponed if the temperature reaches, or is expected to reach, 32° or lower over a weekend or a state or federal holiday. The customer will receive daily alert notifications when their prepaid balance drops below \$25.
7. In the event of disconnection, payment must be made for any unpaid daily charges that accrued prior to disconnection, as well as payment to establish a minimum positive prepaid account balance of \$25. Customers under this rider who have been disconnected will not be subject to the Reconnect Fee or late payment charges.
8. Payments to prepaid accounts may be made in any amount provided a positive balance is maintained on the customer's prepaid account.
9. If the customer has two or more returned payments in a 12-month period, the Company may refuse to accept a check, electronic check, debit card, or credit card tendered for a payment on the customer's account. A Returned Payment Fee will be assessed to the customer for each occurrence.
10. A monthly bill will not be provided. However, when closing an account, a final bill will be provided. Customers will be able to monitor their prepaid balance and usage on-line via the Company's online NRLP Customer Portal or mobile app NRLP Connect.
11. If an account is disconnected and does not reactivate in five (5) days, the account will be considered inactive and the Company will provide a final bill.

12. Customers may terminate service under this rider at any time. Should a customer choose to leave this rider, the customer will still receive electric service under the Residential Service Schedule R, subject to the normal monthly bills, full payment or new payment structure of any outstanding debt balance and reinstatement of the security deposit.
13. If a Company representative is called to a customer's premise to investigate a problem with the prepaid equipment, as claimed by the customer, and no problem with the equipment is found, the customer may be assessed a Service Call.

Regular Working Hours - If the Service Call is between 8:00 a.m. and 5:00 p.m., Monday through Friday (except holidays), the fee will be \$25.00.

After Regular Working Hours - If the Service Call is during the evenings, weekends or holidays, the fee will be \$60.00.

New River Light and Power
Renewable Energy Rider
"Rider RER"

Availability

This Renewable Energy Rider ("Rider") is available on a limited and voluntary basis to any retail customer receiving service from New River Light and Power (NRLP) who contracts for blocks of electricity generated from Renewable Energy Resources.

General Provisions

Any customer may contract with NRLP for the purchase of block(s) of energy from Renewable Energy Resources to be billed to that customer monthly based on a set monthly Rate.

NRLP shall produce, purchase or otherwise acquire energy from Renewable Energy Resources to meet the expected Blocks contracted for each calendar year. The Rate charged to participating customers for a Block of such energy will be as set forth in this Rider.

Customers participating in this rider will continue to receive and pay for all energy used under their respective applicable rate schedules. In addition, participating customers shall pay for the contracted Blocks provided under this Rider at the Rate shown below regardless of the Customer's actual monthly kWh usage.

NRLP shall maintain a deferred account for the aggregate incremental difference between the cost of energy purchased from Renewable Energy Resources by NRLP to be provided pursuant to this Rider (and the direct cost of administering the RER Rider program) and the actual cost of energy purchased pursuant to its then current wholesale power purchase contract for all other load to customers served by NRLP. Any difference between the revenues received and the actual costs paid for Renewable Energy Resources will be applied as an annual true-up at the end of each calendar year to adjust the size of the Block for the following year. The annual true-up process will ensure that only revenue received from participating customers under this Rider will be used to pay the actual Renewable Energy Resources cost differential incurred by NRLP.

Energy purchased and/or produced from Renewable Energy Resources will displace energy that would have otherwise been purchased pursuant to NRLP's then current wholesale power purchase contract for all other load to customers served by NRLP; however, such energy purchased from Renewable Energy Resources may not be delivered specifically to the individual customer contracting for service under this program. Accordingly, no individual customer who commences or terminates service from NRLP is entitled to a refund or credit (or is required to pay any additional amount) based upon any allocated share of the deferred account balance at the time of commencement or termination of service.

Definitions

Renewable Energy Resources: For the purposes of this rider, Renewable Energy Resources has the same definition as found in N.C. Gen. Stat. § 62-133.8(a)(8) or its recodified successor.

Block of Renewable Energy Resources ("Block"): The initial block of Renewable Energy Resources for the first year of this rider will be 250 kWh per month. For each year thereafter, the size of this block may be adjusted to allow for the previous year's true-up to ensure customers receive their respective allocated share of all Renewable Energy Resources purchased by NRLP pursuant to this Rider.

Month: The term "month" as used in this rider shall be customer's normal bill month for the period between monthly meter readings.

Rate

\$ 5.00 per block of Renewable Energy Resources per month.

Payment

The payment obligations of participating customers will be those stated within their applicable rate schedule for electric service. Non-payment of the incremental RER charge will not subject participating customers to being disconnected so long as all other payment obligations are satisfied.

Contract Period / Limitation of new offerings

Each customer shall enter a contract to purchase a specified number of blocks of Renewable Energy Resources for a minimum original term of one year and from month to month thereafter upon the condition that either party can terminate the contract by providing at least thirty (30) days prior written notice.

NRLP in its discretion may limit, temporarily or permanently, the availability of new Blocks to purchase by existing or new customers by filing with the North Carolina Utilities Commission a notice of suspension of this Rider and removing the Rider from its website and rate materials provided to customers.

Effective Date

This Rider will be effective to electricity sales by NRLP beginning January 1, 2022.
