I don't understand how a private entity is charging nearly 150% of the local municipality rate. On top of that, they've done no maintenance, no upgrades of any sort to the treatment facility. They're trying to raise their rates every quarter. At some point you all have to say no! You all are paid through taxpayer funds, stand up for the consumers. There's no reason we should have to pay for some other facility that has nothing to do with us.

There is no way anyone can support or justify Aqua's intent to raise prices based upon the current market conditions as their lack of performance to their paying customers There is NO accountability to improved service and until that is delivered then no price increases should be considered Regards Shaun
