NC Utility Commission

Dear Commission,

I am writing to object to the proposed merger between Duke Energy & Piedmont Natural Gas.

North Carolinians deserve cleaner and cheaper energy options--not more pipelines, fossil fuels, and fracked gas. Please reject this proposed deal! It's bad for business, bad for the future of North Carolina, and bad for our democracy.

Governor Patty seems to think we are stupid like those trained military pilots that might crash into a wind turbines in Eastern North Carolina.

And I sure hate it for those birth males and/or female janitors having enter and a restroom\_\_ YMCA locker room of the other birth sex. Are they breaking the law?

Women have private stalls Governor Patty. Men, like you get shower naked in a wide open room\_\_shower heads along wall. Privacy?

These assholes are so out of touch they feel the need to protect my privacy by not realising police body cam video.

Sincerely,

Charles Powell

To: NC Utilities Commission Chair Ed Finley:

It doesn't take an intelligent person to know that the proposed merger of Duke Energy with Piedmont Natural Gas is simply a monopoly and that is considered harmful because they obstruct the channels of free competition that determine the price and quality of products and services that are offered to the public.

Regulators and the Public Staff should act on behalf of what is best for the public, not Duke Energy! Prevent them from creating a monopoly and keep the channels of competition available to everyone.

Thank You!
