Hi, good morning. I would like to know how Net Metering works in NC. I understand that Duke Energy, Progress Energy and Dominion North Carolina Power have the net metering program but I do not know if the net excess generated is credited to customer's next bill at retail rate or if there is a different rate. I also want to understand if it is possible to change my electric company. My current company is Pineville Electric and I want to swicht to Duke Energy to recieve the benefits of Net Metering. Thanks in advance.
