Camp Flintlock®

Est. 1999

Established in 1999
By Tim & Renee Langdon

HISTORY..

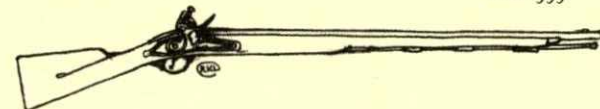

Live It!

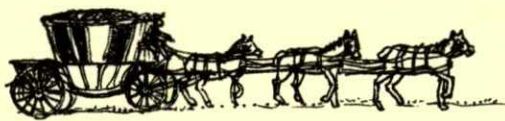

Colonial American Field Trips, Summer Camp & Special Events

Camp Flintlock®

Est. 1999

FIELD TRIPS

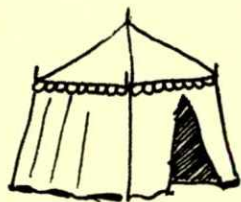

Camp Flintlock conducts daytime field trips for public, private and charter schools as well as homeschools and other groups. Have it at your school or at our site! Parents & children under 5 are FREE!

All field trips include:

- Make an Indian necklace
- Shop in the camp store
- Dress-up
- Play Colonial games

Other activities available to choose from are:

- Candle making
- Writing with quill and ink
- Indian war paint and story
- Sword fighting
- Block printmaking
- Rag doll making
- Tomahawk throwing
- Journal making
- Play rounders

Shop in the
Sutler's Tent

Dress up in
Colonial Clothing

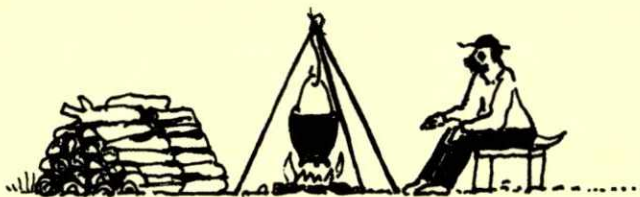

SUMMER CAMP

During our summer sessions, both day camp and residential camp, boys and girls get to:

- Wear colonial costumes daily
- Sword fight
- Write with quill and ink
- Play colonial games
- Make authentic crafts
- Cook authentic food
- Shop in camp store
- Discuss the proverbs of Solomon
- Learn colonial music
- Throw tomahawks
- And much much more!

Residential Campers also get to:

- Shoot a musket
- Build a period shelter
- Sleep in a Rev. War tent

Scholarships are available on a limited basis for the Residential Camp sessions only.

OTHER PROGRAMS

- Overnight Encampments
- Annual Colonial Faire (2nd Sat. in Sept.)

See our website for more details:

www.campflintlock.com

TESTIMONIALS & WRITE UPS

"...kids have a better grasp of American History and a lot more respect for their hardworking ancestors."

- Better Homes and Gardens

"At Camp Flintlock, history comes alive in a personal way..."

- Our State (Magazine)

"...an opportunity to do, rather than watch, living history."

- The Washington Post

"Thank you so much for coming to our school again this year! You provide such a great program for the students-they enjoyed it so much! As a teacher it is also a pleasure working with you-you make it so easy! Thank you again..."

David E. Maaswinkel
3209 Ravenna Rd
Four Oaks, NC 27524
November 5, 2017

To Whom It May Concern:

I am writing this letter in regards to the

proposed new transmission-to-distribution-

substation in the Cleveland area of Johnston

County. I am opposed to this current plan.

I received a negotiated letter in April of this

year making me aware of the plan and

the proposed surveying on my property. While

I do support community growth and development

I feel I have not been kept informed and

was not aware of other undisturbed property

owners. I have not reviewed my zoning

until now. I am concerned about the

negative impact this line will have on

my plans for future development of

this property that is not readily available

for farming.

As there is any possibility of another

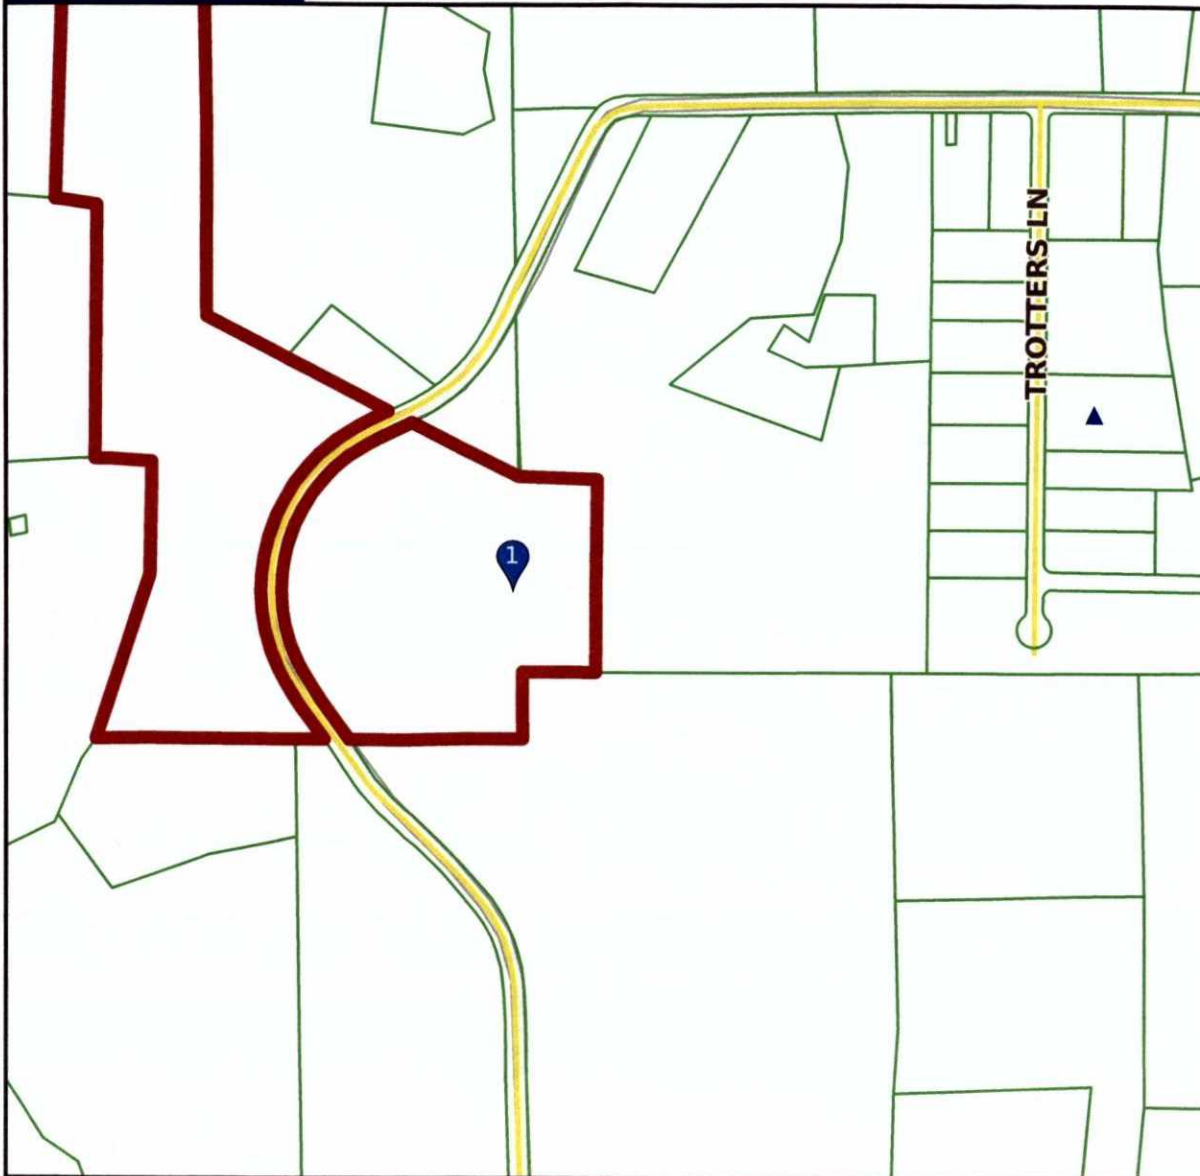

site I would support that totally.

Yours truly,

David E. Maaswinkel

State of North Carolina Utilities Commission Docket No. E-2, Sub 1150 (Cleveland Matthews Project)

I am Jeffrey Canady. I live at 950 Gum Swamp Rd Four Oaks, NC. Our residence connects to our family farm that is in segment 33 of the preferred chosen route for the Cleveland Matthews Rd Transmission Line. I would like to clarify that our family farm is a stand of planted pines. Some of those pines are approximately 5 years from maturity. The pines are planted in rows, and were once part of the conservation reserve program.

I spoke at the Public Hearing held on October 30, 2017 in Smithfield, NC. I was also at the Hearing held on October 31, 2017 in Raleigh, NC. During the Hearing on October 31, 2017, it appeared that there were some discrepancies in DEP's application and testimony given. As a result, I am respectfully asking the Commission to deny DEP's request for the route chosen for its Cleveland Matthews Rd Transmission Line.

Timothy J. Same testified that public comment and construction cost were used to determine the selected route. When Mr. Same was asked by the Commission the difference in construction cost between the chosen route and the shorter western routes, Mr. Same hesitated but answered the construction cost were similar. If a thorough study had been conducted on each route, DEP should have been able to provide the construction cost of each route. Mr. Same could only state that DEP may have to use mating on the western route and that the mating was expensive. Mr. Same could not testify to how much mating was required nor the cost of the mating. As a side note, I have also recently realized that estimated market value costs of parcels are publicly available on Johnston County GIS. It seems that this would make cost estimates relatively easy for easements.

Timothy Same testified that the preferred chosen route was picked due to open/green space in subdivisions along the shorter western route. In rebuttal questions from the Commission, DEP said they discovered possible litigation problems with crossing open/green spaces in April 2017. During the hearing held on October 31, 2017, Timothy Same testified that the route was chosen prior to the certified letters that went out in April 2017 notifying land owners of the route chosen. If the route was chosen prior to the discovery of the litigation problems, how was this reason used to rule out the shorter western routes?

On July 14, 2017, James Umbdenstock testified that there are not transmission lines in the Cleveland Community. This statement is simply not true, if there is a 500-volt transmission line

approximately 4 miles from the proposed Cleveland Matthews Road Substation. In the hearing held on October 31, 2017, Umbdenstock testified that DEP never considered running 230-volt transmission lines on the same ROW as the 500-volt transmission line. Umbdenstock also said DEP never considered using the 500-volt transmission line to feed the substation. Umbdenstock testified that it would require a 200-acre facility to use the 500-volt transmission line to feed the Cleveland Community.

DEP admitted they could not prove that all landowners were notified about the Public Workshops held in November 2016. DEP even stated their process was flawed and could be improved. Testimony given at the Public Hearing from landowners is clear. Multiple landowners did not receive notification. DEP is attempting to take ones most cherished possession (land). In my opinion, if one land owner did not receive their chance at due process to protect what is theirs, then DEP's request for the proposed route should be denied.

Sincerely,

A handwritten signature in cursive script that reads "Jeffrey Canady". The signature is written in black ink and is positioned below the word "Sincerely,".

State of NC Utilities Commission Docket No. E-2, Sub 1150
Cleveland Matthews Project

It is my observation that an overwhelming majority of landowners between Elevation Road and Hwy 210 (that I know or have spoken to about this project) with parcels involved or very near this project appear to be older citizens. I can only estimate; 60-65 and older.

I have previously submitted written statements that the November 2016 letter inviting the public to the informational open houses was difficult to understand. I spoke to Mrs. Betty Johnson by phone today and she stated that she did not understand the letter either (but did receive it). She agreed to let me include that in my statement. She seemed to be a very nice lady and I am sure she would be glad to verify that, if you would like to contact her. (Map ID: 07G08006B). I told her I would include the parcel map, but mark out her address. She was agreeable to that also. I spoke to several landowners over the weekend and they did not know about the

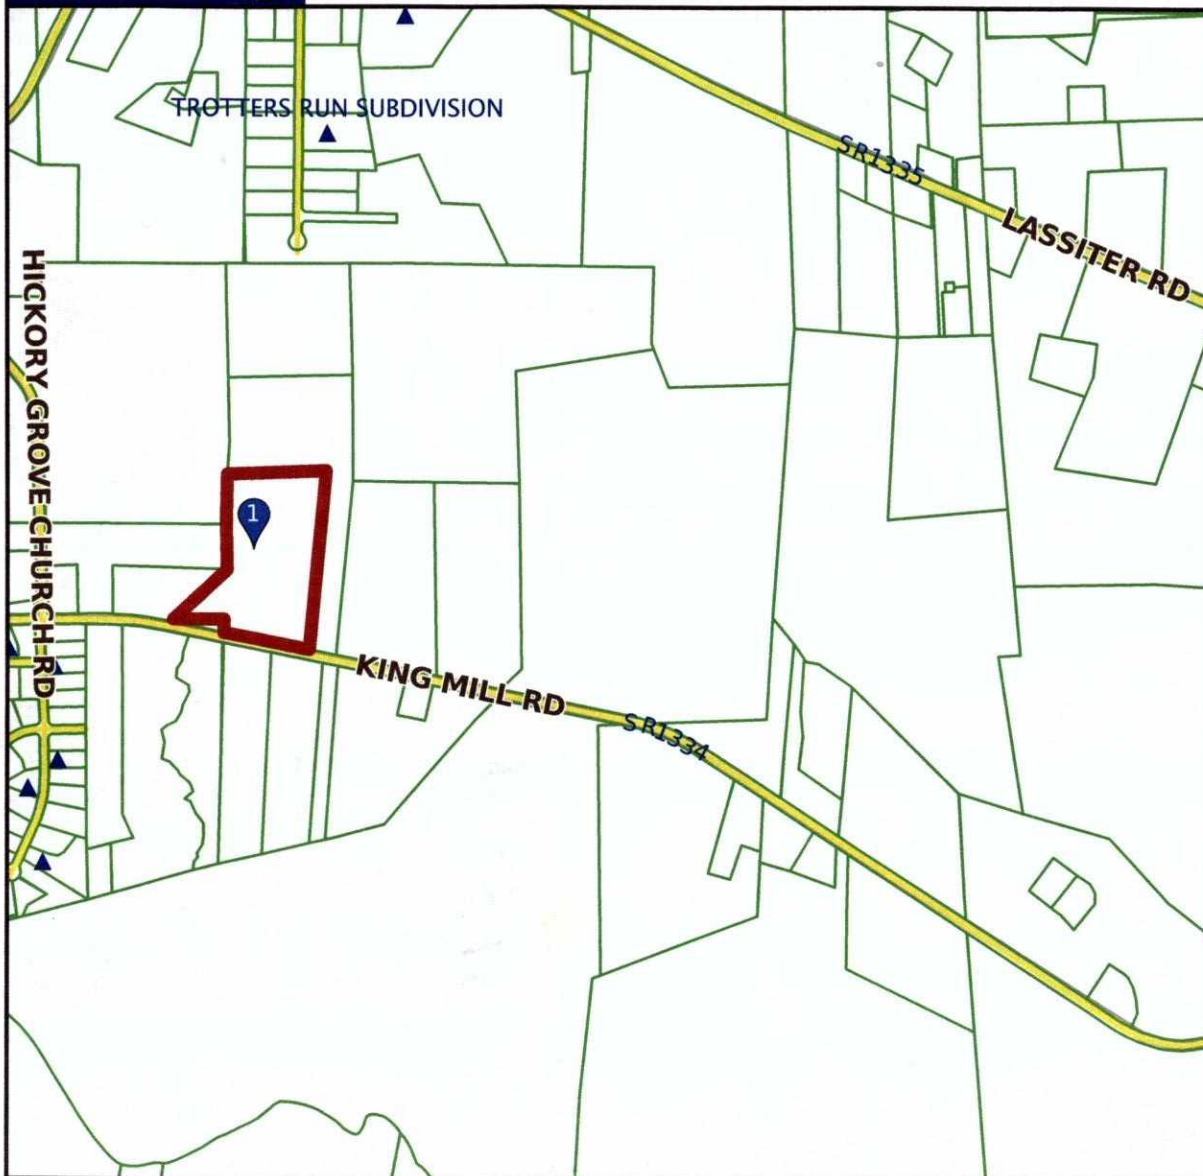

Sincerely, *Kimberly C. Canady*
