Re: Docket No. EMP-93, Sub 0
Wilkinson Solar LLC – CPCN Amendment Site Layout Reduction

Dear Chief Clerk:

Wilkinson filed a site layout amendment on November 29, 2017 (the "Amendment"). Attached to the Amendment was a proposed site layout, marked as "Wilkinson Amended Application Exhibit A" (the "Amendment Layout"). With this letter, Wilkinson revises the Amendment Layout to reflect that there will be no solar panels placed on an area of the VanStaalduinen Brothers property (the "Exclusion Zone"), which is approximately 26 acres and adjacent to property owned by Debra VanStaalduinen, Joann Lilley, and Marshall Lilley. The project boundary of the solar facility has not changed and the revision reduces the footprint of the facility. Enclosed and marked as "Wilkinson Amended Application Exhibit A - Revised" is the revised proposed layout showing the Exclusion Zone in red (the "Revised Layout"). The Revised Layout continues to accommodate a 74-MW_{AC} facility.

Because no new land has been added to the project boundary, no further State Environmental Clearinghouse review or publication of notice is required. We have been authorized by the Public Staff to state that they agree no further Clearinghouse review or publication is required. Therefore, we request the Commission enter an Order Issuing an Amended Certificate of Public Convenience and Necessity to Wilkinson Solar LLC.

Please let me know if you have any questions.

Sincerely,

/s/ Katherine E. Ross
