PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual demand-side management (DSM) and energy efficiency (EE) cost recovery proceeding for Duke Energy Progress, LLC (DEP). The public hearing has been scheduled to begin immediately following the hearings in Docket Nos. E-2, Subs 1320 and 1321, which are scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-133.9 and Rule R8-69. By its application DEP requests a total annual revenue decrease of approximately \$8 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 0.011 cents per kilowatt-hour (kWh) for residential customers. Non-residential General Service customers, depending upon their participation in DEP's DSM or EE programs, would see no change in their DSM rider, and an EE rider decrease of 0.066 cents per kWh. Lighting customers would see an EE rider decrease of 0.099 cents per kWh. Industrial and large commercial customers that have, under N.C.G.S. § 62-133.9, opted out of and never participated in DEP's DSM and EE programs are not subject to the rider.

and Fuel-Related Charge Adjustments,
for Electric Utilities

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual fuel and fuel-related adjustment charge proceeding for Duke Energy Progress, LLC (DEP). Public witness testimony will be received in accordance with Commission Rule R3-21(g).

This proceeding is being held pursuant to the provisions of N.C. Gen. Stat. § 62-132.2 and Commission Rule R3-55 for the purpose of determining whether an increase or decrease in fuel and fuel-related charges in fuel and fuel-related costs over and above the base fuel rate established for DEP in its last general rate case.

On June 13, 2023, DEP filed its application in the above-captioned docket. By its application, DEP requests Commission approval for an increase in its fuel and fuel-related costs currently in effect, with the changes being effective for service rendered on and after December 1, 2023. By its application, DEP proposes a net fuel and fuel-related cost recovery rate increase of 5.1%, on average, to customers with, if approved, DEP's request would result in increases of the current fuel rates of all customer classes, with the amount of the increase varying for different customer classes. For example, the net effect of DEP's request as filed would increase the monthly bill of a typical residential customer using 1,000 kilowatt hours per month by \$6.57, excluding the regulatory fee.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, Dobbs Building, 5th Floor, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application and testimony is available for review by the public, or on the Commission's Website at www.ncuc.gov.

This proceeding is being held pursuant to the provisions of N.C.G.S. § 62-133.9 and Commission Rule RS-62, for the purpose of determining whether an increment of demand-side management (DSM) and energy efficiency (EE) measures and program costs incurred for adoption and implementation of new DSM and new EE measures and appropriate incentives. Public witness testimony will be received in accordance with Commission Rule RS-21(g).

On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-133.9 and Rule RS-62. By its application DEP requests a total annual revenue decrease of approximately \$3 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 0.041 cents per kilowatt-hour (kWh) for residential customers. Non-residential General Service customers, depending upon their participation in DEP's DSM or EE programs, would see no change in their DSM rider, and an EE rider decrease of 0.036 cents per kWh. Lighting customers would see an EE rider decrease of 0.009 cents per kWh. Industrial and large commercial customers that have, under N.C.G.S. § 62-133.9, opted out of and never participated in DEP's DSM and EE programs are not subject to the rider.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, 400 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application is available for review by the public. for Electric Utilities

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual fuel and fuel-related adjustment charge proceeding for Duke Energy Progress, LLC (DEP). The public hearing is scheduled to begin immediately following the hearings in Docket No. E-2, Subs 1320, which is scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g). This proceeding is being held pursuant to the provisions of N.C. Gen. Stat. § 62-133.2 and Commission Rule R8-55 for the purpose of determining whether an increment or decrement rider is required to reflect changes in fuel and fuel-related costs over or under the base fuel rate established for DEP in its last general rate case.

On June 13, 2023, DEP filed its application in the above-captioned docket. By its application, DEP requests Commission approval for an increase in its fuel and fuel-related costs currently in effect, with the changes being effective for service rendered on and after December 1, 2023. By its application, DEP proposes a net a fuel and fuel-related cost recovery rider increase of 5.1%, on average, to customers' bills. If approved, DEP's request would result in increases of the current fuel rates of all customer classes, with the amount of the increase varying for different customer classes. For example, the net effect of DEP's request as filed would increase the monthly bill of a typical residential customer using 1,000 kilowatt hours per month by \$6.17, excluding the regulatory fee.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, Dobbs Building, 5th Floor, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application and testimony is available for review by the public, or on the Commission's website at www.ncuc.gov.

This proceeding is being held pursuant to the provisions of N.C.G.S. § 62-133.9 and Commission Rule R8-69, for the purpose of determining whether an increment or decrement rider is required to allow DEP to recover all reasonable and prudent costs incurred for adoption and implementation of new DSM and new EE measures and appropriate incentives. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-133.9 and Rule R8-69. By its application DEP requests a total annual revenue decrease of approximately \$8 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 0.011 cents per kilowatt-hour (kWh) for residential customers. Non-residential General Service customers, depending upon their participation in DEP's DSM or EE programs, would see no change in their DSM rider, and an EE rider decrease of 0.066 cents per kWh. Lighting customers would see an EE rider decrease of 0.099 cents per kWh. Industrial and large commercial customers that have, under N.C.G.S. § 62-133.9, opted out of and never participated in DEP's DSM and EE programs are not subject to the rider.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application is available for review by the public. Also, documents may be viewed on the Commission's website at www.ncuc.gov.

for Electric Utilities)

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual fuel and fuel-related adjustment charge proceeding for Duke Energy Progress, LLC (DEP). The public hearing is scheduled to begin immediately following the hearings in Docket No. E-2, Subs 1320, which is scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

This proceeding is being held pursuant to the provisions of N.C. Gen. Stat. § 62-133.2 and Commission Rule R8-55 for the purpose of determining whether an increment or decrement rider is required to reflect changes in fuel and fuel-related costs over or under the base fuel rate established for DEP in its last general rate case.

On June 13, 2023, DEP filed its application in the above-captioned docket. By its application, DEP requests Commission approval for an increase in its fuel and fuel-related costs currently in effect, with the changes being effective for service rendered on and after December 1, 2023. By its application, DEP proposes a net a fuel and fuel-related cost recovery rider increase of 5.1%, on average, to customers' bills. If approved, DEP's request would result in increases of the current fuel rates of all customer classes, with the amount of the increase varying for different customer classes. For example, the net effect of DEP's request as filed would increase the monthly bill of a typical residential customer using 1,000 kilowatt hours per month by \$6.17, excluding the regulatory fee.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, Dobbs Building, 5th Floor, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application and testimony is available for review by the public, or on the Commission's website at www.ncuc.gov.

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual demand-side management (DSM) and energy efficiency (EE) cost recovery proceeding for Duke Energy Progress, LLC (DEP). The public hearing has been scheduled to begin immediately following the hearings in Docket Nos. E-2, Subs 1320 and 1321, which are scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-133.9 and Rule R8-69. By its application DEP requests a total annual revenue decrease of approximately \$8 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 0.011 cents per kilowatt-hour (kWh) for residential customers. Non-residential General Service customers, depending upon their participation in DEP's DSM or EE programs, would see no change in their DSM rider, and an EE rider decrease of 0.066 cents per kWh. Lighting customers would see an EE rider decrease of 0.099 cents per kWh. Industrial and large commercial customers that have, under N.C.G.S. § 62-133.9, opted out of and never participated in DEP's DSM and EE programs are not subject to the rider.

Commission Rule R8-69)

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual demand-side management (DSM) and energy efficiency (EE) cost recovery proceeding for Duke Energy Progress, LLC (DEP). The public hearing has been scheduled to begin immediately following the hearings in Docket Nos. E-2, Subs 1320 and 1321, which are scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. This proceeding is being held pursuant to the provisions of N.C.G.S. § 62-133.9 and Commission Rule R8-69, for the purpose of determining whether an increment or decrement rider is required to allow DEP to recover all reasonable and prudent costs incurred for adoption and implementation of new DSM and new EE measures and appropriate incentives. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-133.9 and Rule R8-69. By its application DEP requests a total annual revenue decrease of approximately \$8 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 0.011 cents per kilowatt-hour (kWh) for residential customers. Non-residential General Service customers, depending upon their participation in DEP's DSM or EE programs, would see no change in their DSM rider, and an EE rider decrease of 0.066 cents per kWh. Lighting customers would see an EE rider decrease of 0.099 cents per kWh. Industrial and large commercial customers that have, under N.C.G.S. § 62-133.9, opted out of and never participated in DEP's DSM and EE programs are not subject to the rider.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application is available for review by the public. Also, documents may be viewed on the Commission's website at www.ncuc.gov.

for Electric Utilities)

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual fuel and fuel-related adjustment charge proceeding for Duke Energy Progress, LLC (DEP). The public hearing is scheduled to begin immediately following the hearings in Docket No. E-2, Subs 1320, which is scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

This proceeding is being held pursuant to the provisions of N.C. Gen. Stat. § 62-133.2 and Commission Rule R8-55 for the purpose of determining whether an increment or decrement rider is required to reflect changes in fuel and fuel-related costs over or under the base fuel rate established for DEP in its last general rate case.

On June 13, 2023, DEP filed its application in the above-captioned docket. By its application, DEP requests Commission approval for an increase in its fuel and fuel-related costs currently in effect, with the changes being effective for service rendered on and after December 1, 2023. By its application, DEP proposes a net a fuel and fuel-related cost recovery rider increase of 5.1%, on average, to customers' bills. If approved, DEP's request would result in increases of the current fuel rates of all customer classes, with the amount of the increase varying for different customer classes. For example, the net effect of DEP's request as filed would increase the monthly bill of a typical residential customer using 1,000 kilowatt hours per month by \$6.17, excluding the regulatory fee.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, Dobbs Building, 5th Floor, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application and testimony is available for review by the public, or on the Commission's website at www.ncuc.gov.

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual demand-side management (DSM) and energy efficiency (EE) cost recovery proceeding for Duke Energy Progress, LLC (DEP). On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-133.9 and Rule R8-69. By its application DEP requests a total annual revenue decrease of approximately \$8 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 0.011 cents per kilowatt-hour (kWh) for residential customers. Commission Rule R8-69)

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual demand-side management (DSM) and energy efficiency (EE) cost recovery proceeding for Duke Energy Progress, LLC (DEP). The public hearing has been scheduled to begin immediately following the hearings in Docket Nos. E-2, Subs 1320 and 1321, which are scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. This proceeding is being held pursuant to the provisions of N.C.G.S. § 62-133.9 and Commission Rule R8-69, for the purpose of determining whether an increment or decrement rider is required to allow DEP to recover all reasonable and prudent costs incurred for adoption and implementation of new DSM and new EE measures and appropriate incentives. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-133.9 and Rule R8-69. By its application DEP requests a total annual revenue decrease of approximately \$8 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 0.011 cents per kilowatt-hour (kWh) for residential customers. Non-residential General Service customers, depending upon their participation in DEP's DSM or EE programs, would see no change in their DSM rider, and an EE rider decrease of 0.066 cents per kWh. Lighting customers would see an EE rider decrease of 0.099 cents per kWh. Industrial and large commercial customers that have, under N.C.G.S. § 62-133.9, opted out of and never participated in DEP's DSM and EE programs are not subject to the rider.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application is available for review by the public. PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual fuel and fuel-related adjustment charge proceeding for Duke Energy Progress, LLC (DEP). The public hearing is scheduled to begin immediately following the hearings in Docket No. E-2, Subs 1320, which is scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

This proceeding is being held pursuant to the provisions of N.C. Gen. Stat. § 62-133.2 and Commission Rule R8-55 for the purpose of determining whether an increment or decrement rider is required to reflect changes in fuel and fuel-related costs over or under the base fuel rate established for DEP in its last general rate case.

On June 13, 2023, DEP filed its application in the above-captioned docket. By its application, DEP requests Commission approval for an increase in its fuel and fuel-related costs currently in effect, with the changes being effective for service rendered on and after December 1, 2023. By its application, DEP proposes a net a fuel and fuel-related cost recovery rider increase of 5.1%, on average, to customers' bills. If approved, DEP's request would result in increases of the current fuel rates of all customer classes, with the amount of the increase varying for different customer classes. For example, the net effect of DEP's request as filed would increase the monthly bill of a typical residential customer using 1,000 kilowatt hours per month by \$6.17, excluding the regulatory fee.

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual fuel and fuel-related adjustment charge proceeding for Duke Energy Progress, LLC (DEP). The public hearing is scheduled to begin immediately following the hearing in Docket No. E-2, Sub 1331, which is scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

This proceeding is being held pursuant to the provisions of N.C. Gen. On June 14, 2023, DEP filed its application in the above-captioned docket. By its application, DEP requests Commission approval for an increase in its fuel and fuel-related costs currently in effect, with the changes being effective for service rendered on and after December 1, 2023. By its application, DEP proposes a net a fuel and fuel-related cost recovery rider increase of 6.1%, on average, to customers' bills. If approved, DEP's request would result in increases of the current fuel rates of all customer classes, with the amount of the increase varying for different customer classes. For example, the net effect of DEP's request as filed would increase the monthly bill of a typical residential customer using 1,000 kilowatt hours per month by \$6.17, excluding the regulatory fee.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, Dobbs Building, 5th Floor, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application and testimony is available for review by the public, or on the Commission's website at www.ncupc.gov.

) PUBLIC NOTICE

)

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual demand-side management (DSM) and energy efficiency (EE) cost recovery proceeding for Duke Energy Progress, LLC (DEP). The public hearing has been scheduled to begin immediately following the hearings in Docket Nos. E-2, Subs 1320 and 1321, which are scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2118, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. This proceeding is being held pursuant to the provisions of N.C.G.S. § 62-135.9 and Commission Rule R1-69, for the purpose of determining whether an incremental or decremental rider is required to allow DEP to recover all reasonable and prudent costs incurred for adoption and implementation of new DSM and new EE measures and appropriate incentives. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-135.9 and Rule R1-69. By its application DEP requests a total annual revenue decrease of approximately \$1 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 5.011 cents per kilowatt-hour (kWh) for residential customers. Non-residential General Service customers, depending upon their participation in DEP's DSM or EE programs, would see no change in their DSM rider, and an EE rider decrease of 0.069 cents per kWh. Lighting customers would see an EE rider decrease of 0.069 cents per kWh. Industrial and large commercial customers that have, under N.C.G.S. § 62-135.9, opted out of and never participated in DEP's DSM and EE programs are not subject to the rider.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application is available for review by the public. Also, documents may be viewed on the Commission's website at www.ncuc.gov.

Written statements may be e-mailed to utilityAGO@ncdoj.gov.

Written statements are not evidence unless the writers appear at a public hearing and testify concerning the information contained in their written statements.

for Electric Utilities)

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual fuel and fuel-related adjustment charge proceeding for Duke Energy Progress, LLC (DEP). The public hearing is scheduled to begin immediately following the hearings in Docket No. E-2, Subs 1320, which is scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

This proceeding is being held pursuant to the provisions of N.C. Gen. Stat. § 62-133.2 and Commission Rule R8-55 for the purpose of determining whether an increment or decrement rider is required to reflect changes in fuel and fuel-related costs over or under the base fuel rate established for DEP in its last general rate case.

On June 13, 2023, DEP filed its application in the above-captioned docket. By its application, DEP requests Commission approval for an increase in its fuel and fuel-related costs currently in effect, with the changes being effective for service rendered on and after December 1, 2023. By its application, DEP proposes a net a fuel and fuel-related cost recovery rider increase of 5.1%, on average, to customers' bills. If approved, DEP's request would result in increases of the current fuel rates of all customer classes, with the amount of the increase varying for different customer classes. For example, the net effect of DEP's request as filed would increase the monthly bill of a typical residential customer using 1,000 kilowatt hours per month by \$6.17, excluding the regulatory fee.

Further information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, Dobbs Building, 5th Floor, 430 North Salisbury Street, Raleigh, North Carolina, where a copy of DEP's application and testimony is available for review by the public, or on the Commission's website at www.ncuc.gov.

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual demand-side management (DSM) and energy efficiency (EE) cost recovery proceeding for Duke Energy Progress, LLC (DEP). The public hearing has been scheduled to begin immediately following the hearings in Docket Nos. E-2, Subs 1320 and 1321, which are scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

On June 13, 2023, Duke Energy Progress, LLC (DEP), filed its application for approval of DSM/EE cost recovery pursuant to N.C.G.S. § 62-133.9 and Rule R8-69. By its application DEP requests a total annual revenue decrease of approximately \$8 million, effective January 1, 2024, from the DSM/EE rider currently in effect. This request would result in a decrease of 0.011 cents per kilowatt-hour (kWh) for residential customers. Non-residential General Service customers, depending upon their participation in DEP's DSM or EE programs, would see no change in their DSM rider, and an EE rider decrease of 0.066 cents per kWh. Lighting customers would see an EE rider decrease of 0.099 cents per kWh. Industrial and large commercial customers that have, under N.C.G.S. § 62-133.9, opted out of and never participated in DEP's DSM and EE programs are not subject to the rider.

The public hearing has been scheduled to begin immediately following the hearings in Docket Nos. E-2, Subs 1320, 1321, 1322, and 1323, which are scheduled to begin at 9:00 a.m. on Tuesday, September 19, 2023, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. The proceeding is being held pursuant to the provisions of N.C.G.S. § 62-133.14 and Commission Rule R8-70 for the purpose of establishing a Joint Agency Asset Rider (JAAR) to allow DEP to recover its acquisition and non-fuel operating costs. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

Duke Energy Progress filed an application and testimony relative to the subject matter of the proceeding on June 13, 2023. The proposed JAAR for residential service is 0.648 cents per kilowatt hour (kWh), including regulatory fee, which would be an increase of 0.017 cents per kWh from the JAAR presently in effect, and would increase the monthly bill of a residential customer using 1,000 kilowatt hours per month by \$0.17. The proposed JAAR per kWh for other non-demand rate class customers, including regulatory fee, is: 0.616 cents for Small General Service; 0.208 cents for Medium General Service; 0.713 cents for Seasonal and Intermittent Service; 0.335 cents for Traffic Signal Service; and no charge for Outdoor Lighting Service. The proposed JAAR per kilowatt for demand rate class customers, including regulatory fee, is: \$1.12 for Medium General Service and \$1.43 for Large General Service. The JAAR for all customer classes would be effective for service rendered on and after December 1, 2023, through November 30, 2024.
