W-354 SUB 360

### Message

I want to express that the amount that Carolina Water service is charging is too high. My opinion is that it is gouging the single occupants in the area. I am a single woman with a single income and to charge me \$50.00 for sewer alone is extreme and puts a strain on me financially. I am sure that I am not the only one. It is even excessive for a family. For a single person it is an over excessive amount. I am already conserving water. It is competing with my power bill. I have to skip prescription baths and take my showers every other day unless i mow the grass. I also have been flushing my toilet every few uses instead of every use in an effort to conserve. For the amount that I am paying, I shouldn't have to conserve like that. My average water bill from the same company is between \$36.00-\$42.00 dollars. The two together is approximately a total of \$86.00-\$92.00 a month for one person. I would much rather be charged by usage. Please put a stop to this increase.
