This letter is in reference to Docket no. SP-11723, Sub O. I am filing a complaint against an application being filed by Apex Solar, LLC for construction of solar generating facility located along Fallston-Waco Rd. All of the land owners that this will be affecting have been fighting against this for over a year and we are all against the solar panel farm. Our land and house will be completely surrounded by the solar panels and that's not the way we want to live and we have put our heart and soul into what we own and don't want to see it ruined. This will take up a lot of beautiful agriculture use land. I also would like to say when you schedule a hearing please have it near here because we all have small children in school and have jobs so it will be almost impossible for us to travel to Raleigh. Thank you for listening.
