Docket E-100 Sub 180

Message

There's a proposal to allow Duke to "just not pay" for big chunks of the kwh put into the grid by solar owners? "Reset" every month (why can they reset, eliminate credits, at all)? And, also, to reduce the value of Kwh contributed? Duke has important infrastructure to be funded, certainly. But many homeowners have invested in solar for themselves, for Duke, and for the generations to come. How about the return on OUR investment? Please don't support this proposal. Thank you, --Don Millsaps, Asheville
