Subject: Mini JIS Activation Roster - Winter Weather Threat -- Midwest and Carolinas
Date: Wednesday, December 21, 2022 2:10:32 PM

Hi Team,

As we continue to monitor the winter weather threats for the Midwest and Carolinas over the next few days, I have worked with managers and pulled together a mini roster for JIS activation effective today.

At this time, we do not have plans to deploy Field Media Liaisons to strategic locations. Field Media Liaisons should continue to conduct interviews and work with media in the field as needed or as your schedule can accommodate. If we have a need to deploy any liaisons to field locations, we'll communicate with the appropriate teammates directly.

Note: If conditions worsen and significant outages occur, additional teammates may be called to provide support.

Thank you in advance for your support and flexibility as we work to respond to this storm over the holiday season.

Lead PIO:

- [REDACTED]
