BY THE CHAIRMAN: On February 18, 2015, as amended April 9, 2015, and November 9, 2015, Rowan Solar, LLC (Rowan), filed a registration statement pursuant to Commission Rule R8-66 for a new renewable energy facility to be located in Salisbury in Rowan County, North Carolina. Rowan stated that its 1.99-MW_{AC} solar photovoltaic (PV) facility will become operational on December 31, 2015.

The filing included certified attestations that: 1) the facility will be in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources; 2) the facility will be operated as a new renewable energy facility; 3) Rowan will not remarket or otherwise resell any renewable energy certificates (RECs) sold to an electric power supplier to comply with G.S. 62-133.8; and 4) Rowan will consent to the auditing of its books and records by the Public Staff insofar as those records relate to transactions with North Carolina electric power suppliers.

On November 10, 2015, the Public Staff filed the recommendation required by Commission Rule R8-66(e) stating that Rowan's registration statement as a new renewable energy facility should be considered to be complete. No other party made a filing with respect to these issues.

Rowan shall annually file the information required by Commission Rule R8-66 on or before April 1 of each year. Rowan will be required to participate in the NC-RETS REC tracking system (www.ncrets.org) in order to facilitate the issuance of RECs.

IT IS, THEREFORE, ORDERED as follows:

1. That the registration by Rowan for its solar PV facility located in Salisbury in Rowan County, North Carolina as a new renewable energy facility shall be, and is hereby, accepted.

2. That Rowan shall annually file the information required by Commission Rule R8-66 on or before April 1 of each year.
