OK great. Cypress Creek can file NCUC cancellations for the projects that we dismantled, but we aren't able to file anything for projects that were sold. But if you are able to confirm that all these thermal projects have been successfully inactivated in NC-RETS, hopefully that will be a bit helpful!

Hi Nikki,

I will check and see if I can find out if and when they were deactivated in NC-RETS. I also might have some notes in the office, however I won't be physically in the office until later next week.

Pat

Hi Pat,

Regarding all of the thermal projects that you flagged... my asset management team thinks these are all "inactive" in NC-RETS because we asked NC-RETS to inactivate the accounts. Do you have access to the NC-RETS system to confirm if these are considered "inactive" now? If so, I think the registrations can probably be cancelled.
