Please help our society move towards a more renewable energy source. As a solar top homeowner since 2016, I am displeased with Duke Energy's wishes to hurt us in our pockets. Please mandate that current solar rooftop owners be grandfathered-in with the rates we agreed to at the time of installation. Duke Energy shouldn't be allowed to change the cost of our hamburger after 3 bites, and up-charge us after we made the initial agreement to adopt the arrangement in the first place. Duke can impact our ROI/break-even by as much as 5 years if this new fee structure is implemented. Future homeowners, insisting on saving our planet, will decide to NOT install solar panels due to this fact
