PUBLIC STAFF  
UTILITIES COMMISSION**

May 1, 2023

Ms. A. Shonta Dunston, Chief Clerk  
North Carolina Utilities Commission  
4325 Mail Service Center  
Raleigh, North Carolina 27699-4300

Re: Docket No. E-2, Sub 1288 – Duke Energy Progress, LLC's Proposed  
Deviation of Approved, New 230 kV Transmission Line in Chatham County,  
North Carolina

Dear Ms. Dunston:

On April 28, 2022, pursuant to Commission Rule R8-62(d), Duke Energy Progress, LLC (DEP), filed a written summary with the Commission explaining a proposed deviation from the approved Certificate of Environmental Compatibility and Public Convenience and Necessity (Certificate) that was previously approved by the Commission on September 13, 2022. The Public Staff has reviewed DEP's summary and filing and agrees that the proposed deviation does not require any amendments to DEP's certificate or additional customer notice.

Sincerely,

Electronically submitted

/s/ Thomas J. Felling

Staff Attorney
