Date: Wednesday, April 29, 2020 4:03:23 PM

Greetings. I live in Fairview NC. Wife and myself both retired. We only use electricity for lights and hot water and water pump. We heat with wood and cook with propane. Bills are pushing \$90 a month. I am against the 14.3 % increase period. I am sorry if Duke got wacked for coal ash etc. Experts said they shouldn't store on site years ago. I don't know how you operate as an a agency but gonna find out. I have notified my elected politicians my disapproval. If passed at even 7% I will find out how you get to this position and find ways to remove some folks. I guess yall have a hard job! And I have a hard way to pay my bills now days. Thks rr
