RE: Status of Compliance with Meter Replacement Requirement (Docket No. W-1034,  
Sub 8 and Sub 10)

Dear Ms. Dunston,

Please accept this letter for filing in the above-captioned docket as notice to the Commission regarding the status of the Water Resources, Inc.'s ("the Company") compliance with the Commission's directive to replace all water meters in the Rocky River Plantation Subdivision.

As of the date of this letter, all meters in Rocky River Plantation have been replaced, except for two meters. The remaining two meters are scheduled to be replaced tomorrow, one day ahead of the February 20 deadline established pursuant to the Commission's January 21, 2022 *Order Granting 30 Day Extension of Time*. If that is not accomplished, the Company will provide a further update to the Commission next week with a full explanation of the circumstances and a request for a further extension of that deadline.

Should you or the Commission have any questions regarding this filing, please contact me at your earliest convenience.

Sincerely,

/s/ Patrick Buffkin
