Message

I am requesting that the Commission reconsider the approval of Duke Energy huge rate hike . The outrageous rate increases are seriously impacting the wellbeing of the NC seniors and hard working families.

E-7 Sub 1276

Message

Please do not approve the Duke Energy Rate Hike. Duke should be reducing emissions, approving and implementing renewables such as solar & wind instead of seeking more gas plants and unproven SMRs. Instead, the new rate structure punishes non-profits and companies that want to install solar. Duke should not require 2 years to approve the Kitty Hawk Offshore Wind Project and should accelerate approval and integration of offshore wind.
