

**BEFORE THE NORTH CAROLINA UTILITIES COMMISSION  
DOCKET NO. EMP-93, SUB 0**

In the Matter of: Application for CPCN to Construct a 74 MW Electric Merchant Plant and Registration of Facility Located at Terra Ceia Rd., Beaufort, NC	RESPONSE TO MOTION TO DENY PETITIONS TO INTERVENE
--	---

Please accept my request to intervene for Docket number EMP-93, Sub 0. I have interest in this case due to a lifelong interest in the protection of the environment and the natural resources of the Pamlico Albemarle Peninsula. Denying the petition to intervene would create a precedent that would deny special interest groups with less standing the opportunity to intervene in future cases.

The previous two cases that are given by Wilkinson as justification for you to deny my request to intervene were individuals who were not ratepayers but still sought to intervene in a rate hearing. Those two instances are not relevant. My concern, and the reason I am seeking to intervene, is that this facility could poison the ground water – the very water my aunt drinks and uses for cooking and, eventually, the rivers of a wide area to which I have many personal interests. I simply want to make sure that this solar facility is not built until we are sure it will not poison my aunt, friends, relatives, and school children or further harm our precious water resources.

Respectfully submitted,

  
Kristina Beasley

VERIFICATION

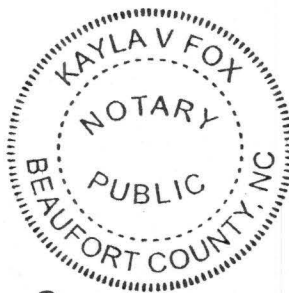

STATE OF NORTH CAROLINA      )  
   )  
   )      DOCKET NO. EMP 93, SUB 0  
 COUNTY OF BEAUFORT             )

PERSONALLY APPEARED before me, Kristina Beasley, after first being duly sworn, said that she has read the foregoing *Response to Motions to Deny Petitions to Intervene* and knows the contents thereof; and that the same are true and correct to the best of her knowledge, information, and belief.
