RE: Docket No. P-100, Sub 137C

Dear Mrs. Mount:

Pursuant to ordering paragraph number 3 of the Commission's Order Approving All-Services Distributed Overlay Option to Provide Area Code Relief, issued on August 13, 2014 in the above-styled docket, the Joint Telecommunications Carriers ("JTC") hereby submit their initial overlay implementation status report. In preparation for the start of permissive 10-digit dialing on October 24, 2015, the Customer Education and Technical subcommittee (an industry group comprised of carriers that provide service in the area code relief area) has been meeting monthly since January 2015. The subcommittee has established milestone dates for activities to complete customer education and technical tasks for both the start of permissive and mandatory dialing. For Customer Education, draft language for the customer notification is currently being developed and will be completed prior to the end of June 2015 for issuance of the first customer notification by September 24, 2015. Special letters will also be sent to Alarm and Safety, Directory, Pay Telephone and PSAP associations or organizations by August 24, 2015 to ensure they are aware of the start of the permissive dialing period. The permissive dialing press release, scheduled for release on October 19, 2015 is currently being developed. The technical milestones, which include 911 activity, are being reviewed monthly to ensure service providers are prepared to accept either 7 or 10 digit dialing on the start of permissive dialing, October 24, 2015. The JTC will file their next implementation status report after the start of permissive dialing on October 24, 2015 and before the end of the year.

Thank you for your assistance with this matter, and feel free to contact me with any questions.

Very truly yours,

/s/Mary Lynne Grigg
