Subject: FRACKING!

FILED

FEB 01 2016

Clerk's Office
N.C. Utilities Commission

E-100 SUB 141

Since the scientists have determined that carbon dioxide emissions are worse for driving the current rate of Global warming, I am writing to demand that we find another solution other than fracking. We have the intelligence to develop a more earth-friendly, people / animal safe practice for fuel.

In as much as the natural gas reserves are exaggerated and fracking gas wells dry quickly...not to mention the incredible amount of water fracking uses...I am asking that the attorney general use his policing authority to examine Duke Energy CLOSELY AND STOP FRACKING!!!!!!

Thank you for caring about the environment and our lives....

Sincerely,

Janice Eckert
