BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of)	
Revocation of Registration of Renewable)	ORDER REVOKING REGISTRATION
Energy Facilities and New Renewable)	OF RENEWABLE ENERGY
Energy Facilities Pursuant to)	FACILITIES AND NEW RENEWABLE
Rule R8-66(f) – 2023)	ENERGY FACILITIES

BY THE COMMISSION: On November 29, 2023, the Commission issued an Order giving notice of its intent to revoke the registration of 94 new renewable and renewable energy facilities because their owners had not completed or filed the annual certification required each April 1 as detailed in Commission Rule R8-66(b)(9). According to Commission's records, and records maintained in the North Carolina Renewable Energy Tracking System (NC-RETS), the owners of the 41 new and renewable energy facilities listed in Appendix A did not complete their annual certification on or before December 27, 2023, as required by the Commission's November 29, 2023 Order, nor has an annual certification been completed for these facilities as of the date of this Order.

The Commission, therefore, finds good cause to revoke the registrations of the 44 facilities listed in Appendix A effective December 27, 2023.

IT IS, THEREFORE, ORDERED as follows:

1. That the registrations previously approved by the Commission for the 43 facilities listed in Appendix A shall be, and are hereby, revoked effective December 27, 2023;
2. That the NC-RETS Administrator shall not allow the owners of the facilities listed in Appendix A to establish those facilities as "projects" in NC-RETS;
3. That the NC-RETS Administrator shall not allow any NC-RETS account holder to import from the facilities listed in Appendix A renewable energy certificates (RECs) that are dated December 27, 2023, or later;
4. That any RECs dated December 27, 2023, or later earned by one of the facilities listed in Appendix A whose registration has been revoked pursuant to this Order are ineligible to be used by an electric power supplier for compliance with the Renewable Energy and Energy Efficiency Portfolio Standard (REPS);
5. That in the future, should the owner of a facility whose registration has been revoked pursuant to this Order wish to have the energy output from its facility become eligible for compliance with the REPS, the owner must again register the facility with the Commission;

6. That the NC-RETS Administrator shall post a copy of this Order on the home page of the NC-RETS website; and

7. That the Chief Clerk shall serve a copy of this Order on all the parties in Docket No. E-100, Sub 113.

ISSUED BY ORDER OF THE COMMISSION.

This the 4th day of March, 2024.
