

deposition and all other discovery notices, requests and motions shall be served on the appropriate parties by hand delivery or facsimile, or by electronic delivery if the receiving party has agreed to receipt by electronic delivery.

2. Any motion for subpoena of a witness to appear at the expert witness hearing shall be filed with the Commission before the deadline for the filing of the Public Staff and other intervenor testimony, shall be served on the person sought to be subpoenaed at or before the time of filing with the Commission, and shall make a reasonable showing that the evidence of such person will be material and relevant to an issue in the proceeding. See N.C.G.S. § 62-62. Unless an objection is filed, the Chief Clerk shall issue the requested subpoena within 2 business days after such a motion is filed.

3. Formal discovery requests related to the application and DEC's prefiled direct and supplemental testimony shall be served on DEC not later than 14 calendar days prior to the filing of the Public Staff and other intervenor direct testimony. The party served shall have up to 10 calendar days to file with the Commission objections to the discovery requests on an item-by-item basis, but in no event shall objections be filed later than 10 calendar days prior to the deadline for the filing of the Public Staff and other intervenor direct testimony.

4. Formal discovery requests related to the Public Staff and other intervenors prefiled direct testimony shall be served no later than 5 calendar days after such testimony is filed. The party served shall have up to 3 business days to file with the Commission objections to the discovery requests on an item-by-item basis, but in no event shall objections be filed later than 9 calendar days after the filing of the Public Staff or other intervenor direct testimony.

5. Formal discovery requests related to DEC's prefiled rebuttal testimony shall be served no later than 3 business days after such testimony is filed. Discovery related to rebuttal testimony shall be limited to new material introduced in such rebuttal testimony and will be carefully scrutinized upon objection that such discovery should have been sought during the initial period of discovery.

6. Discovery requests need not be filed with the Commission when served; however, any party filing objections shall attach a copy of the relevant discovery request to the objections. Each discovery request, or part thereof, to which no objection is filed shall be answered by the time objections are due, subject to other agreement of the affected parties or other order of the Commission. Upon the filing of objections, the party seeking discovery shall have 2 calendar days to file with the Commission a motion to compel, and the party objecting to discovery shall have 1 calendar day thereafter to file a response. All objections, motions to compel, and responses shall be served on the other affected party at or before the time of filing with the Commission.

7. A party shall not be granted an extension of time to pursue discovery due to that party's late intervention or other delay in initiating discovery.

The Chair urges all parties to work in a cooperative manner and to attempt to accommodate discovery within the time available. The Commission recognizes that in the past, most discovery has been conducted in an informal manner without the need for Commission involvement or enforcement, and that such has been generally successful. The above guidelines are without prejudice to the parties conducting informal discovery or exchanging information by agreement at any time with the understanding that such will not be enforceable by the Commission if outside the guidelines.

IT IS, THEREFORE, ORDERED as follows:

1. That a public hearing for the purpose of considering the annual fuel and fuel-related charge adjustment proceeding for DEC shall be, and is hereby, scheduled to begin at 2:00 p.m. on Monday, June 10, 2024, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina;

**STATE OF NORTH CAROLINA
UTILITIES COMMISSION
RALEIGH**

DOCKET NO. E-7, SUB 1304

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of
Application of Duke Energy Carolinas, LLC,)
Relating to Fuel and Fuel-Related Charge)
Adjustments for Electric Utilities Pursuant to) PUBLIC NOTICE
N.C. Gen. Stat. § 62-133.2 and Commission)
Rule R8-55)

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual fuel and fuel-related adjustment charge proceeding for Duke Energy Carolinas, LLC (DEC). The public hearing is scheduled to begin at 2:00 p.m. on Monday, June 10, 2024, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

This proceeding is being held pursuant to the provisions of N.C. Gen. Stat. § 62-133.2 and Commission Rule R8-55 for the purpose of determining whether an increment or decrement rider is required to reflect changes in fuel and fuel-related costs over or under the base fuel rate established for DEC in its last general rate case.

On February 27, 2024, DEC filed its application in the above-captioned docket. By its application, DEC requests Commission approval for an increase in its fuel and fuel-related costs currently in effect, with the changes being effective for service rendered on and after September 1, 2024. If approved by the Commission, DEC's proposed changes in fuel rates would result in an increase of the current fuel rates of all customer classes with the amount of the increase varying for different customer classes effective September 1, 2024, followed by a decrease beginning on January 1, 2025. More particularly, for the four-month period beginning September 1, 2024, and ending December 31, 2024, a typical residential customer using 1,000 kWh per month would experience an increase of \$1.60, or 1.1%. The impacts for average general service/lighting customers and industrial customers vary by customer, but are approximately increases of 2.9% and 9.1%, respectively. Beginning on January 1, 2025, customer bills are expected to decrease. A typical residential customer using 1,000 kWh per month would experience a decrease of \$12.68, or 8.9% from fuel factors currently in effect. The impacts for average general service/lighting customers and industrial customers vary by customer, but are approximate decreases of 12.5% and 15.9%, respectively from fuel factors currently in effect.
