Clerk's Office
N.C. Utilities Commission

Dear Chief Clerk of the Commission,

As a resident of Hollying Springs, North Carolina, who has interstate in installing solar panels, I want you to decline Duke Progress Energy 's props all to change net metering. The proposed changes would discourage us to move forward with the install. The goal is to become more environmentally friendly and give people the option to be less dependant on the only energy option available to residents.

Please decline anything that allows Duke Progress energy to increase their monopoly over North Carolina.

Best regards

Tina George
