RE: Pluris: **Exhibit #1**

Dear Ms. Downey,

Attached you will find the letters from the residents of Coastal Plantation that I referenced during the Public Witness Hearing on August 17, 2020 via the WebEx call.

Some of these letters are signed by the head of the household for both parties within the house, so you might not tally the 102 names, but my attached spreadsheet does identify how many people are in each household so that you can see the total. Actually, I received a few additional letters today, so that my new total is 105.

Thank you for your consideration in helping us not face this huge increase from Pluris. Please feel free to contact me if you have any further questions.

Sincerely,

Miriam (Mim) Bloch

President of the Coastal Plantation Activity Club

RE: Pluris:

Dear Ms, Downey,

As residents of Coastal Plantation, a Sun Communities property in Pender County, I am writing to protest the proposed increase in our sewer bill. We are a community of 55+ residents, most of us are on a fixed income and this increase will make it extremely hard on our budgets. As it is, many of my neighbors have difficulty paying their bills today. This increase is will be way over our budgets.

All of the homes in our 55+ community only have one or two people living in the house and our water bills reflect that many of us use a little over the minimum water each month. It does not seem fair to us that we would have to have the same increase as people elsewhere in Pender County that might have 3 to 6 people in the home, using more water than we would.

We are senior citizens who do not water their lawns on a daily basis, nor do we wash our cars or other wastes of water.

Please reconsider this increase and allow us to continue to pay the amount that we are currently paying.

Attached please find a copy of a recent water bill that shows how little water we use. This bill shows that

1000 gallons of water were used.

Sincerely,

It does not seem fair to us that we would have to have the same increase as people elsewhere in Pender County that might have 3 to 6 people in the home, using more water than we would.

We are senior citizens who do not water their lawns on a daily basis, nor do we wash our cars or other wastes of water.

Please reconsider this increase and allow us to continue to pay the amount that we are currently paying.

Attached please find a copy of a recent water bill that shows how little water we use. This bill shows that 3710 gallons of water were used.

Sincerely,

RE: Pluris:

Dear Ms, Downey,

As residents of Coastal Plantation, a Sun Communities property in Pender County, I am writing to protest the proposed increase in our sewer bill. We are a community of 55+ residents, most of us are on a fixed income and this increase will make it extremely hard on our budgets. As it is, many of my neighbors have difficulty paying their bills today. This increase is will be way over our budgets.

All of the homes in our 55+ community only have one or two people living in the house and our water bills reflect that many of us use a little over the minimum water each month. It does not seem fair to us that we would have to have the same increase as people elsewhere in Pender County that might have 3 to 6 people in the home, using more water than we would.

We are senior citizens who do not water their lawns on a daily basis, nor do we wash our cars or other wastes of water.

Please reconsider this increase and allow us to continue to pay the amount that we are currently paying.

Attached please find a copy of a recent water bill that shows how little water we use. This bill shows that 2100 gallons of water were used.

Sincerely,

RE: Pluris:

Dear Ms, Downey,

As residents of Coastal Plantation, a Sun Communities property in Pender County, I am writing to protest the proposed increase in our sewer bill. We are a community of 55+ residents, most of us are on a fixed income and this increase will make it extremely hard on our budgets. As it is, many of my neighbors have difficulty paying their bills today. This increase is will be way over our budgets.

All of the homes in our 55+ community only have one or two people living in the house and our water bills reflect that many of us use a little over the minimum water each month. It does not seem fair to us that we would have to have the same increase as people elsewhere in Pender County that might have 3 to 6 people in the home, using more water than we would.

We are senior citizens who do not water their lawns on a daily basis, nor do we wash our cars or other wastes of water.

Please reconsider this increase and allow us to continue to pay the amount that we are currently paying.

Attached please find a copy of a recent water bill that shows how little water we use. This bill shows that

4100 gallons of water were used.

Sincerely,

Name(s) William + Lucille O'Brien

As it is, many of my neighbors have difficulty paying their bills today. This increase is will be way over our budgets.

All of the homes in our 55+ community only have one or two people living in the house and our water bills reflect that many of us use a little over the minimum water each month. It does not seem fair to us that we would have to have the same increase as people elsewhere in Pender County that might have 3 to 6 people in the home, using more water than we would.

We are senior citizens who do not water their lawns on a daily basis, nor do we wash our cars or other wastes of water.

Please reconsider this increase and allow us to continue to pay the amount that we are currently paying.

Attached please find a copy of a recent water bill that shows how little water we use. This bill shows that 5600 gallons of water were used.

Sincerely,

Name(s) Anthony Vergalito

RE: Pluris:

Dear Ms, Downey,

As residents of Coastal Plantation, a Sun Communities property in Pender County, I am writing to protest the proposed increase in our sewer bill. We are a community of 55+ residents, most of us are on a fixed income and this increase will make it extremely hard on our budgets. As it is, many of my neighbors have difficulty paying their bills today. This increase is will be way over our budgets.

All of the homes in our 55+ community only have one or two people living in the house and our water bills reflect that many of us use a little over the minimum water each month. It does not seem fair to us that we would have to have the same increase as people elsewhere in Pender County that might have 3 to 6 people in the home, using more water than we would.

We are senior citizens who do not water their lawns on a daily basis, nor do we wash our cars or other wastes of water.

Please reconsider this increase and allow us to continue to pay the amount that we are currently paying.

Attached please find a copy of a recent water bill that shows how little water we use. This bill shows that 1000 gallons of water were used.

Sincerely,
