Raleigh, North Carolina 27699-4300

Re: Docket No. SP-5262, Sub 0 – Henry Gibson Solar, LLC

Dear Ms. Dunston:

On July 30, 2021, Henry Gibson Solar, LLC (Applicant) filed a Motion to Renew Certificate of Public Convenience and Necessity in the above-referenced docket. On October 7, 2021, the Applicant filed a supplemental site plan that adds new land to the east of the original site boundary and a proposed corridor for an underground gen-tie line that extends approximately 4,000 feet south to Gibson Road. The attached map highlights the updates to the site plan. Based on the changes to the site plan, the Public Staff recommends that the Commission send the application to the State Clearinghouse for review and – if the Commission believes additional notice is warranted – issue an order requiring publication of notice.

I certify that a copy of this letter has been served on the applicant by e-mail. Please feel free to contact me with any questions.

Sincerely,

Electronically submitted
/s/ Scott J. Saillor
